The background of the image features a soft, out-of-focus effect with horizontal bands of color. These bands transition from a pale yellow on the left to a bright pink in the center, and then back to a pale yellow on the right. The overall effect is dreamlike and suggests motion or a sunset/sunrise.

ARTIEUR

General Introduction

ARTEOR™ —versatility and a global vision for any installation level

Arteor™ is the innovative answer to the increasingly complex requirements in the building business all over the world. Arteor™ excels by its unique aesthetics and a rich choice of innovative designs and ergonomical options.

The range reaches from wiring devices, through innovative radio automation solutions, up to fully networked home automation systems based on BUS technology, which can also be integrated into third party solutions.

ARTEOR™: the ideal solution, always and everywhere

Its versatility makes Arteor™ the ideal choice for every kind of project, anywhere in the world at any installation level. Arteor™ suits any requirement in terms of design and function for every kind of building, from residential to commercial.

Multi-Dwelling Units

Hotels

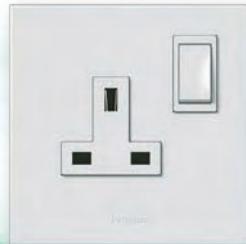

ARTEOR™: truly international

Euro/US, Italy, French
and German standard

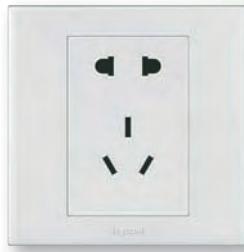

British Standard

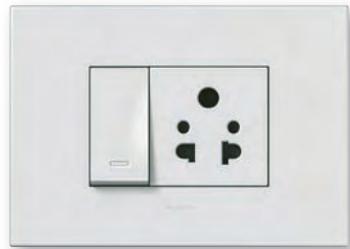

Korea

Euro/US/China

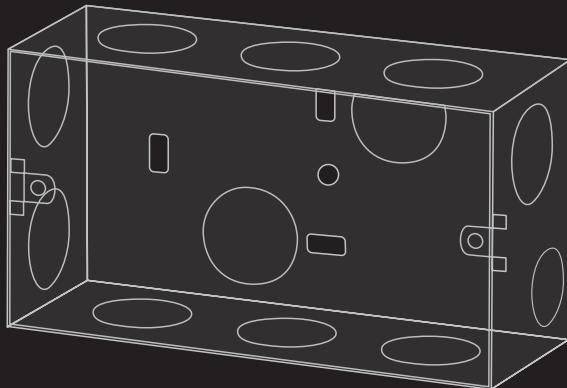

India

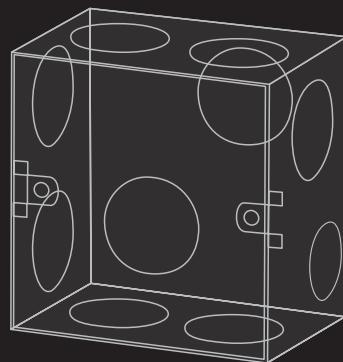

Arteor™ has been developed as an authentic international concept. This international approach enables it to fulfil local market requirements with specific solutions, designed to match local installation habits.

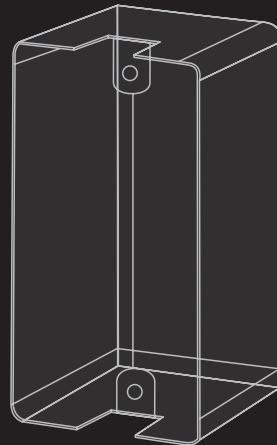

Arteor™ is compatible with any kind of wall box. Some examples:

Italian type

British type

US type

10

11

South Africa

Australia

The range provides all major standards and types of sockets:
British, US, Italian, German, French, Korean, Indian, Chinese, Australian, South African...

ARTIFER

Design

Design for a global lifestyle

The timeless design of Arteor™ features clearly hi-tech characteristics understandable anywhere in the world. Minimalist and sober, its carefully crafted design is inspired by the most modern technological devices, such as flat screens and digital photo frames, creating the impression that the product is floating on the wall.

Design options for control functions

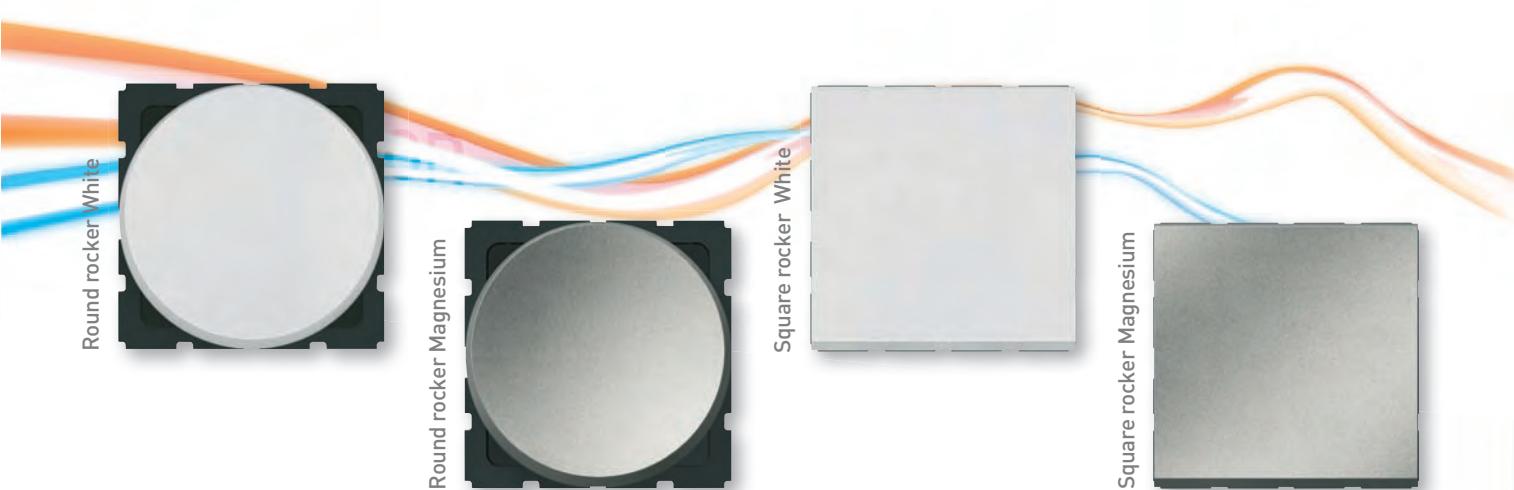

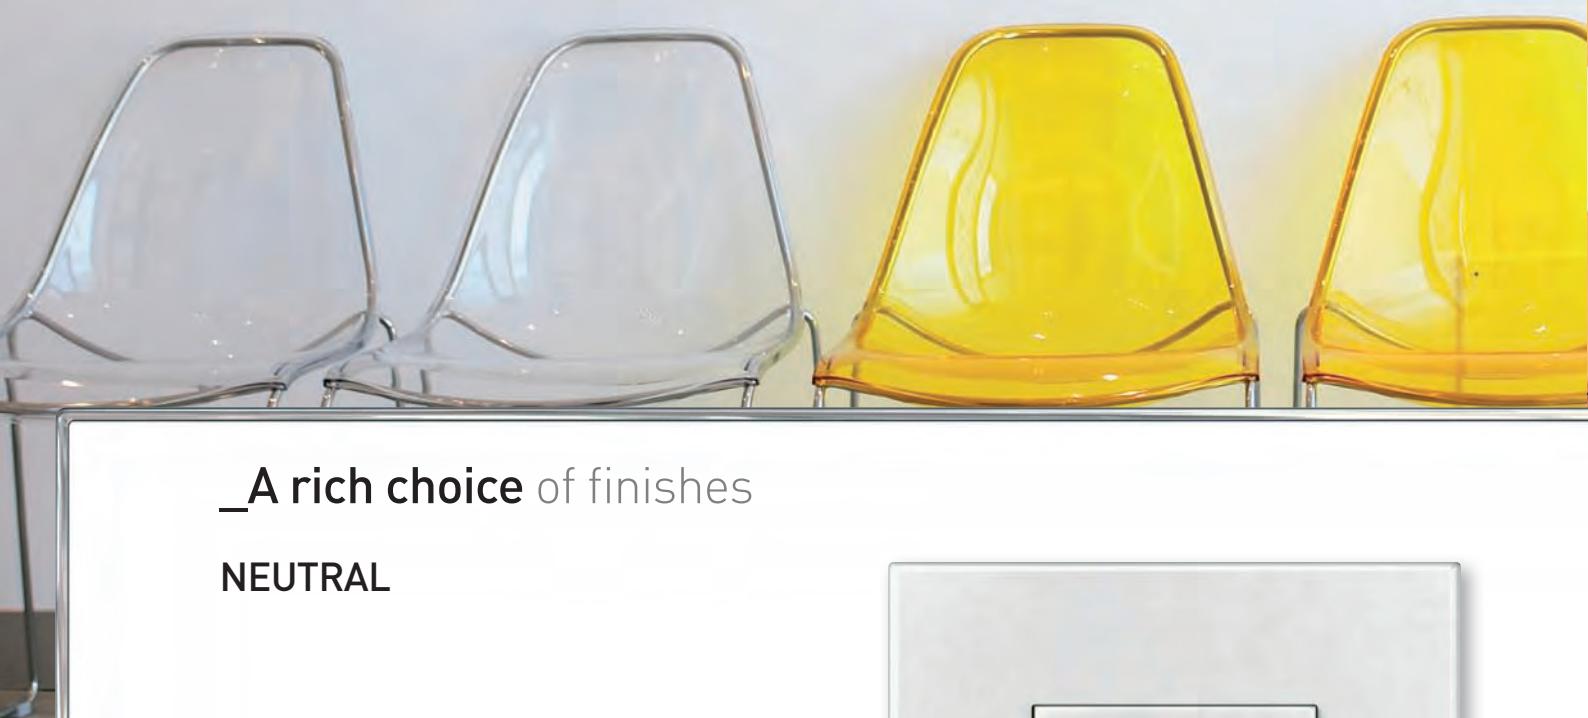

Arteor™ offers a wide choice of ergonomics and finishes to satisfy the most demanding customers. All stand-alone control functions are available in two shapes of rockers – round or square – and in two colours – white or magnesium.

14

15

A rich choice of finishes

NEUTRAL

Classical tones for perfect harmony with modern environments, whether residential or commercial.

Wenge Style

Nature meets technology in a perfect combination of natural materials and metal details.

A rich choice of finishes

LEATHER

Club

Galuchat

A luxury finish made of high-quality authentic leather, designed for sophisticated environments. Arteor™ is the only range featuring Galuchat: this precious fish leather makes luxury a living part of interior design.

SIGNATURE

Woven metal, a hi-tech material which requires special processing skills. An extraordinary choice for the most demanding customers.

Woven Metal

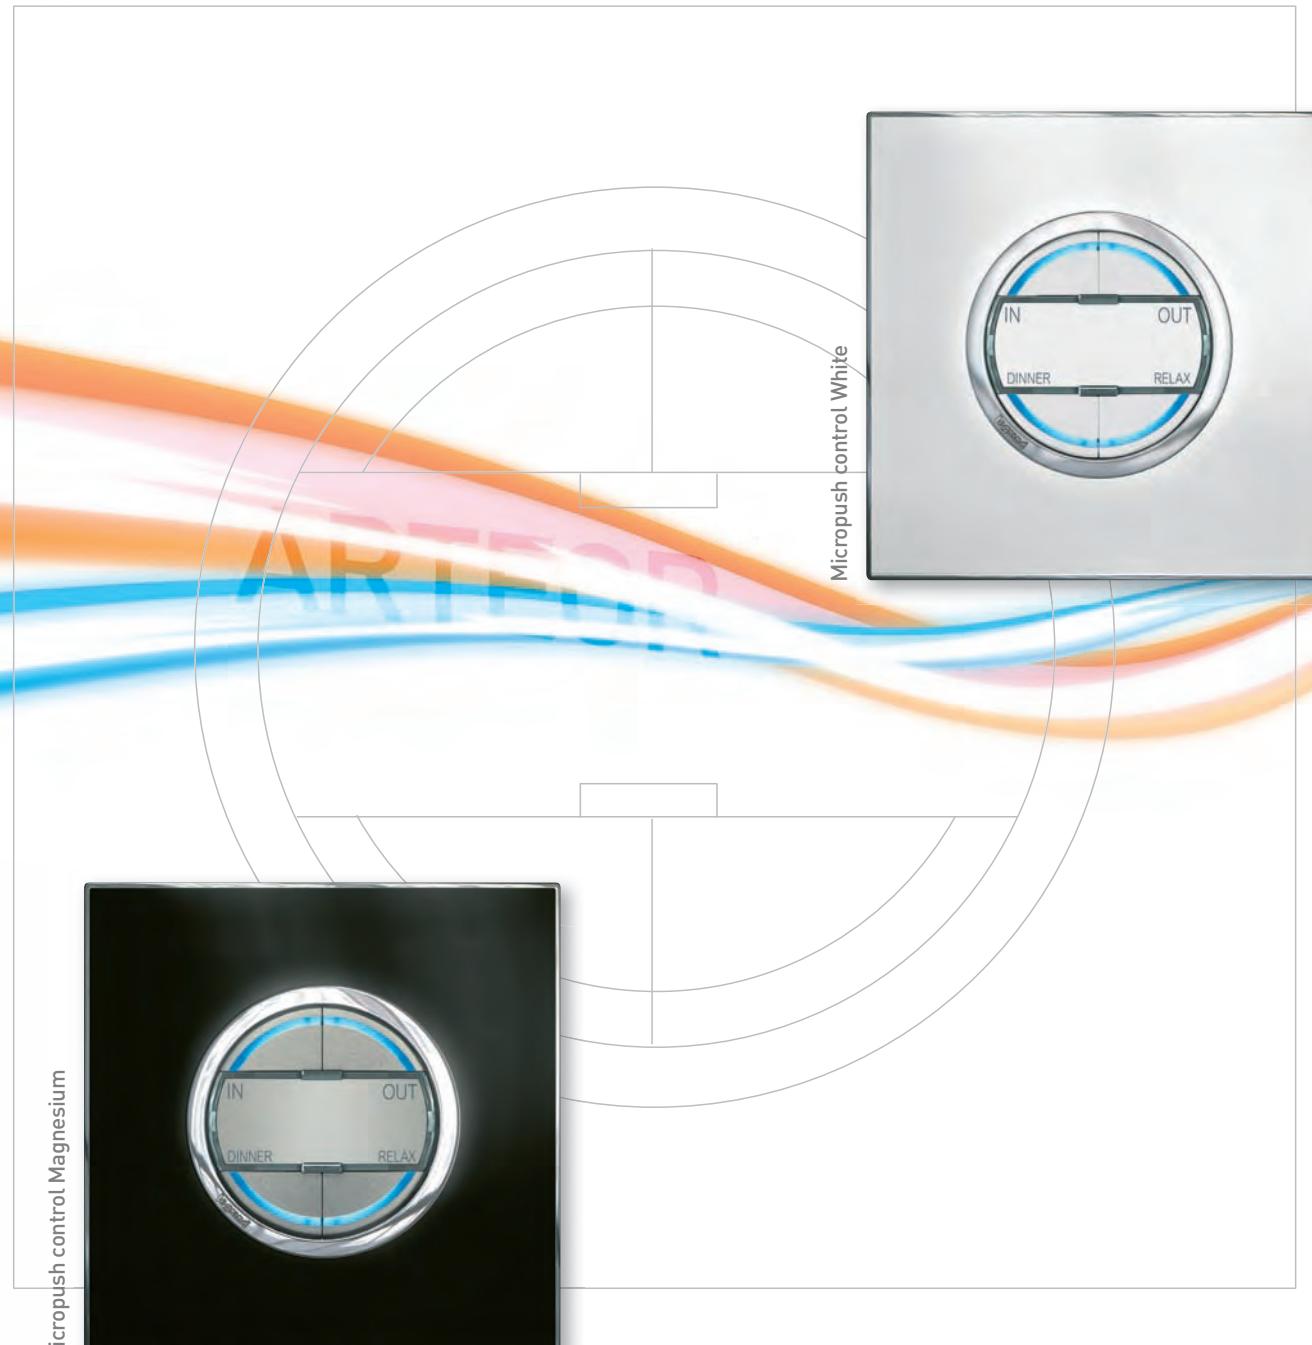

22

23

Design options for home automation

While similar in design to the stand-alone devices
the home automation control functions provide even
more technological features.

All home automation control functions of the Arteor™ line are available in 2 versions: round micropush version or advanced touch controls.

Touch plate dimmer Black

Touch plate dimmer White

24

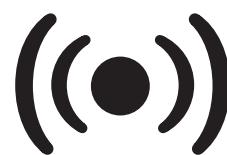

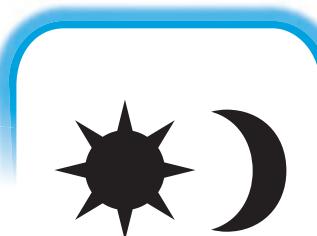

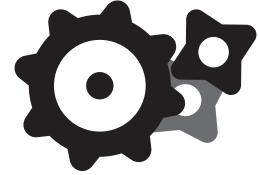

25

25

Graphic user interfaces

The Arteor™ range offers a wide choice of graphic user interfaces speaking the same “icon language” as modern electronic consumer devices. These clearly designed icons allow the user to browse the different functions of the Home Automation system in an intuitive way.

26

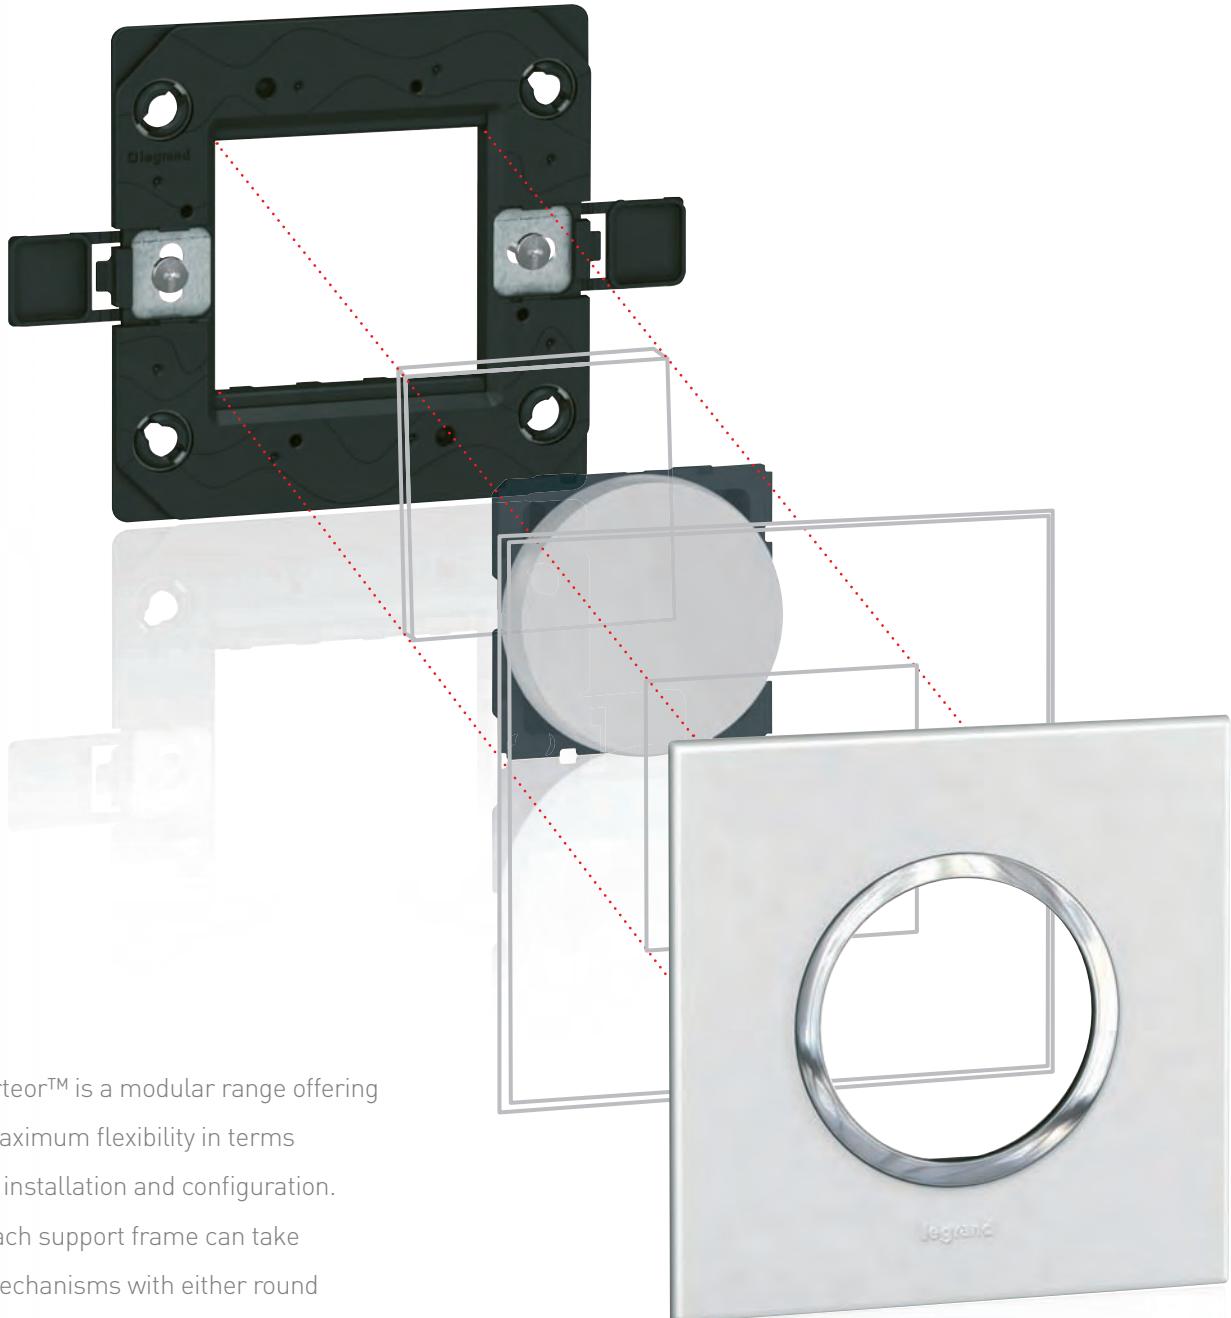

27

Installation features

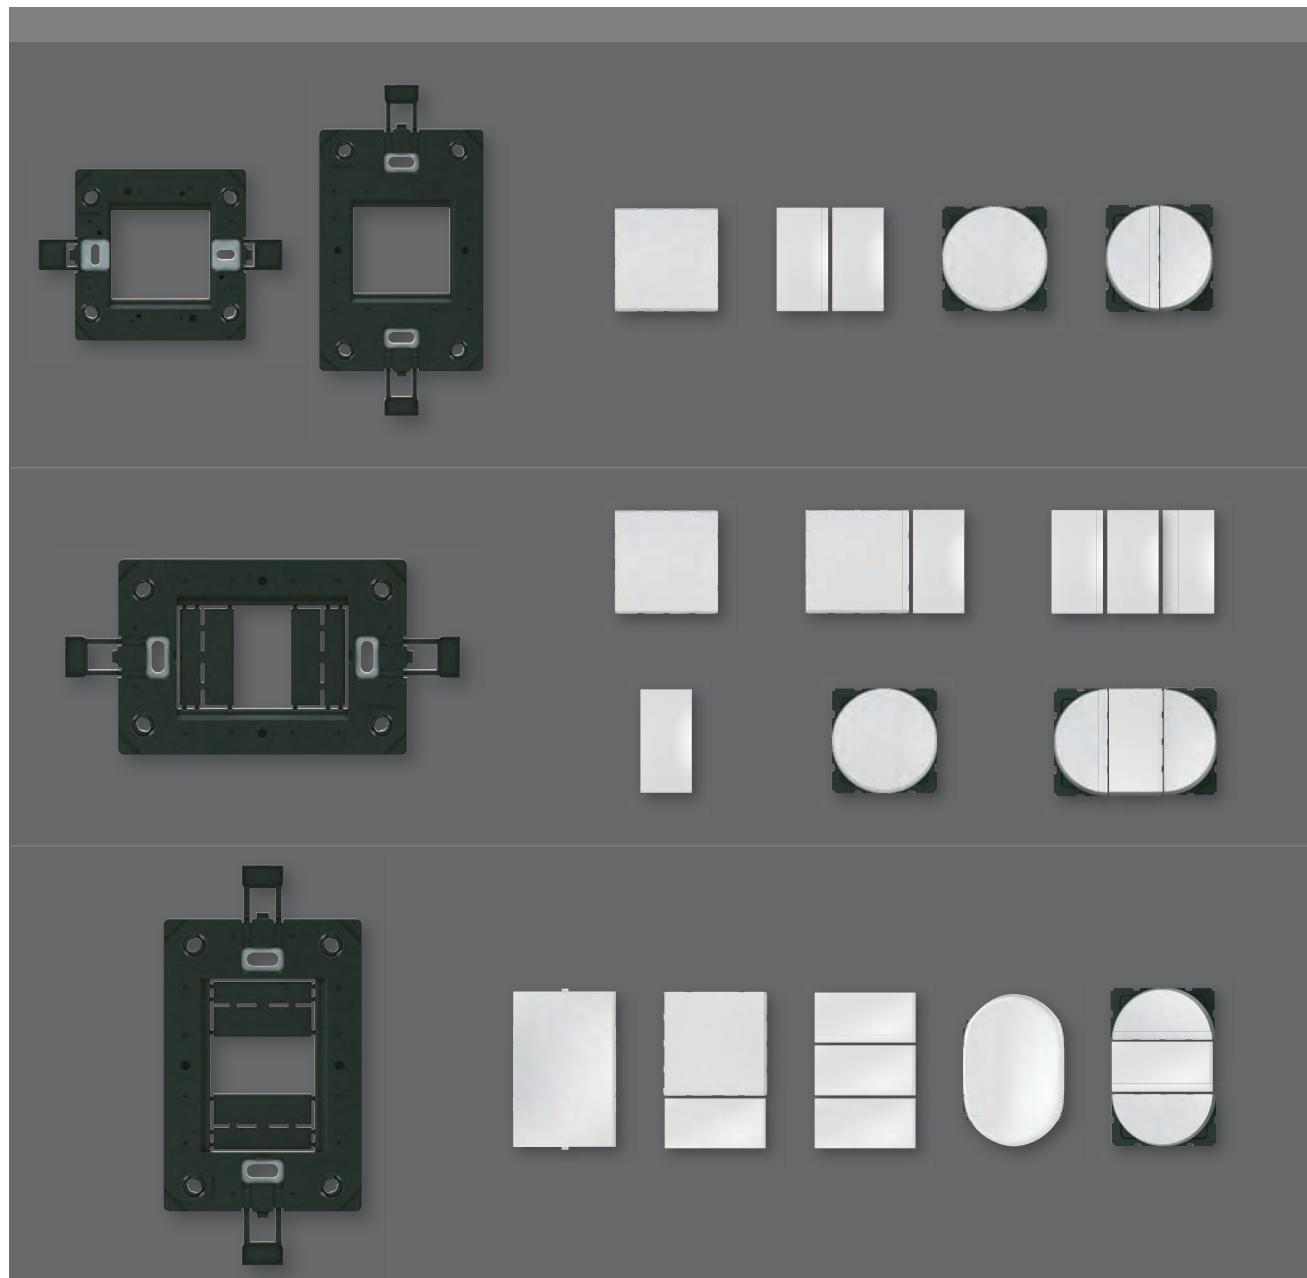

Versatility and modularity for unrivalled flexibility

Arteor™ is a modular range offering maximum flexibility in terms of installation and configuration. Each support frame can take mechanisms with either round or square rockers and matches with any kind of plate, whether basic or high end.

The modular concept allows for any kind of individual customized configuration even in tight spaces.

Modularity is maintained whatever the standard.

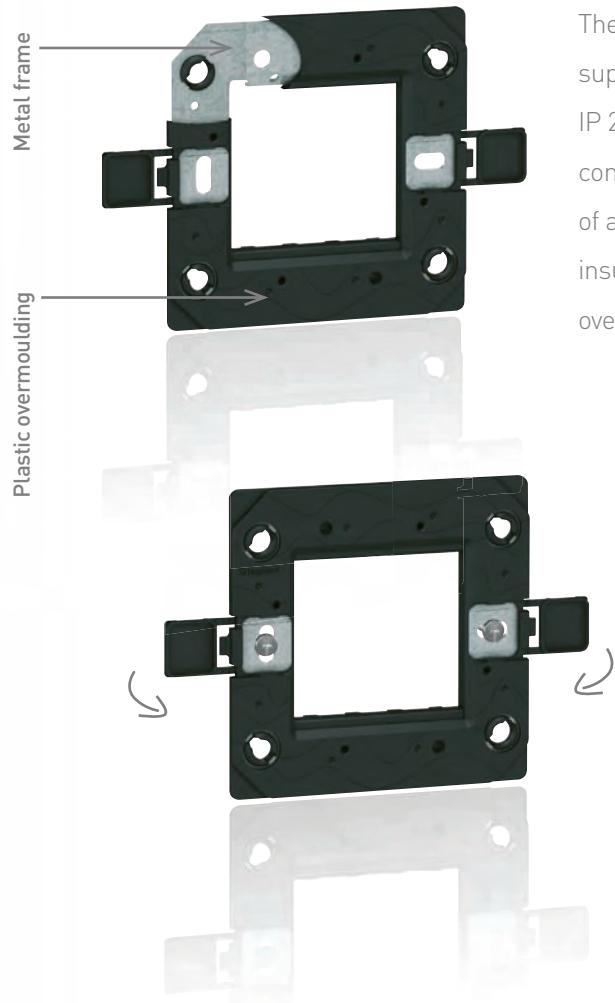

30
31

Arteor™ mechanisms are fully compatible with Legrand floor boxes, columns and trunking system.

Installation safety first

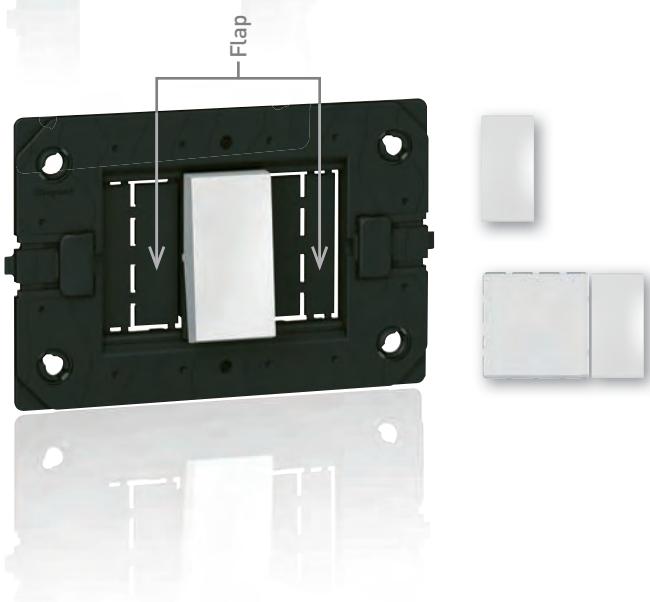

The innovative bi-material support frame provides IP 20 electrical safety. It combines the sturdiness of a metal frame with the insulating qualities of plastic overmoulding.

Screw caps can be closed once the support frame is installed, ensuring total insulation.

Specific to US/Italian standard support frames: flaps ensure safety when only one or two modules are installed on a 3-module support frame. Flaps avoid any contact with the wires (e.g. in case of disinstallation) and can be broken out according to individual needs.

Safety at every step of the installation process

Support frames and plates are each supplied with special protective shells.

This ensures protection of the product against dust and paint.

Full protection - whether only support frame and mechanism are installed...

... or whether the complete product is mounted before completion of site work.

Protective shells should be removed only once site work is fully completed.

32

33

ARTEON

Home Automation

Home automation general features

In One by Legrand, the comprehensive and versatile home automation solution, which is integrated to the Arteor™ line will satisfy your most demanding customers' needs.

In One by Legrand is the answer for any kind of home automation requirement: from automation of a single function, via different independent functions through to completely networked integrated solutions.

One solution, two technologies, endless possibilities

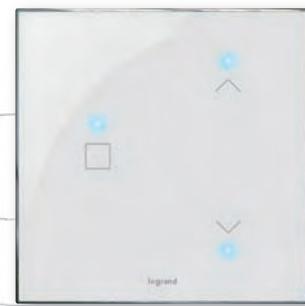

Centralization, integration, communication and multimedia

Remote management

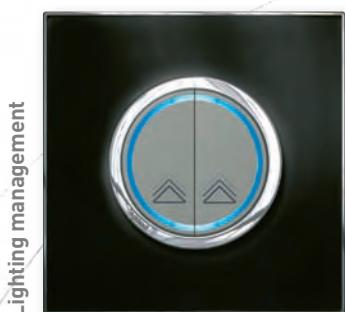

Comfort

38

39

Comfort

Lighting management

In One by Legrand works through

two different media:

- radio using ZigBee® protocol
- BUS using SCS protocol

Products have been developed to ensure perfect interoperability and maximum reliability of the system.

In One by Legrand installations offer a high level of flexibility.

Radio offer

the easy way to home automation

“Plug & Play” - no special wiring

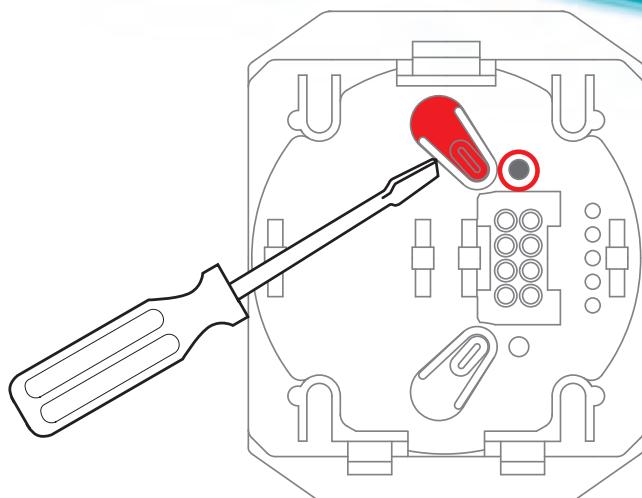

The radio solutions offered by

In One by Legrand, based on the

ZigBee®* protocol, use the existing electrical infrastructure and require no special wiring.

“Push & Learn” configuration

The products can be easily configured directly on the device itself by the “push and learn principle”. No specific software needed.

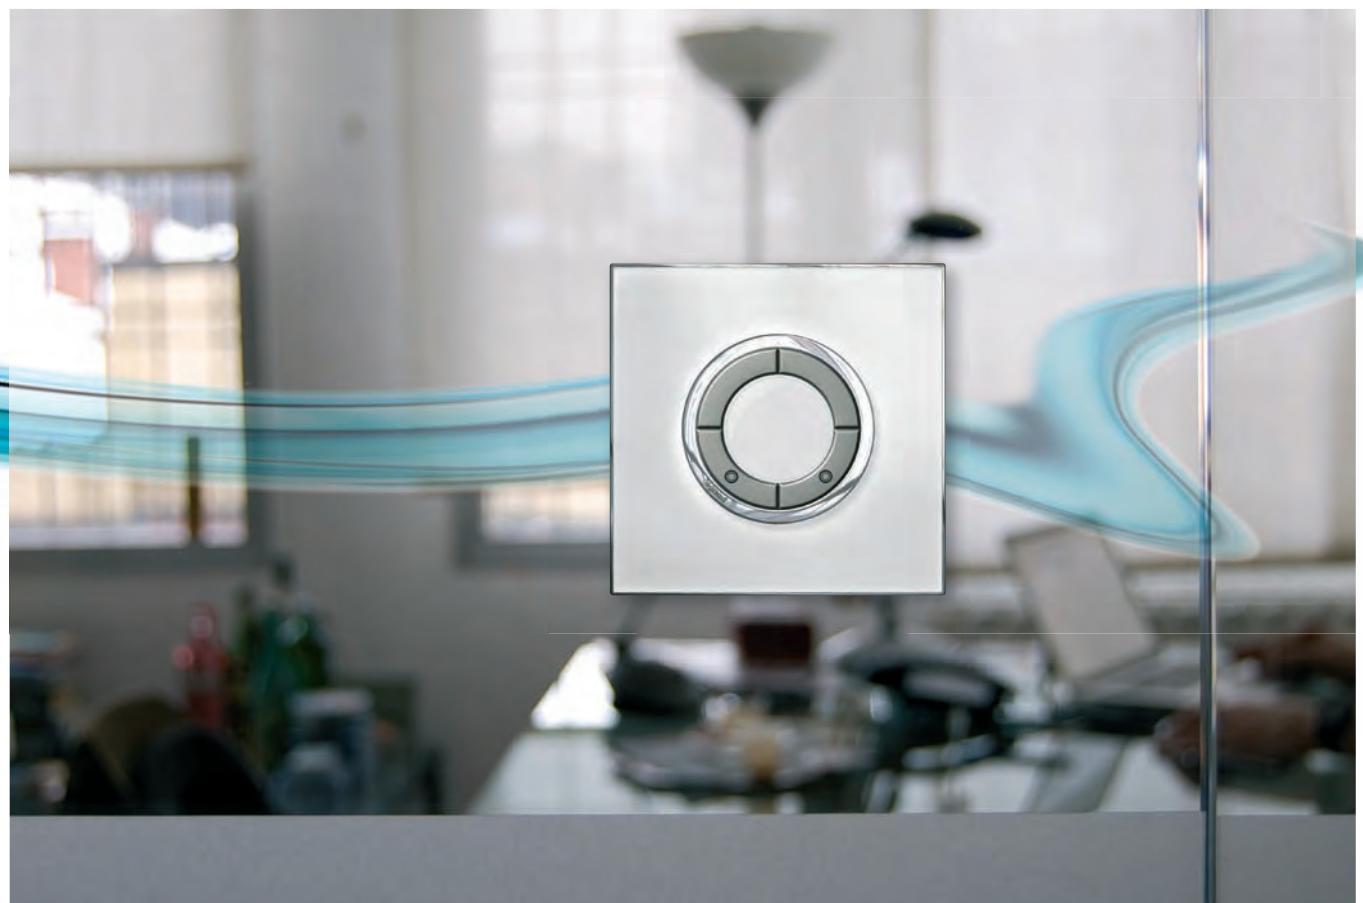

* ZigBee® Certified Product - Manufacturer Specific Profile

When to use it

It is the ideal choice:

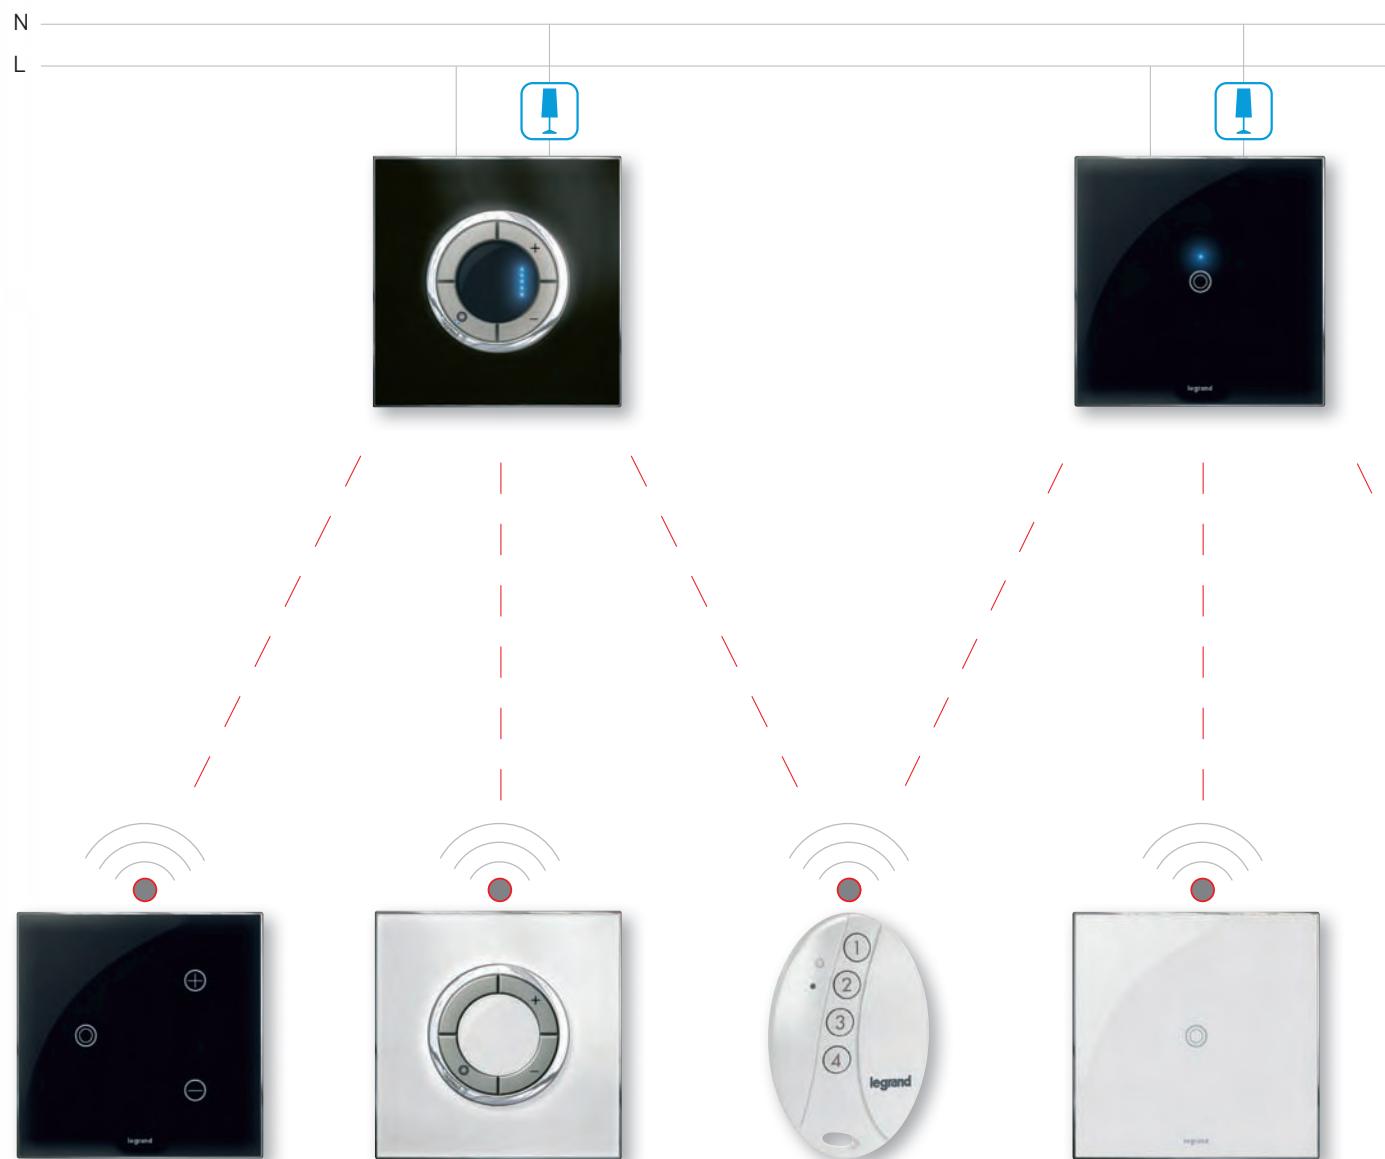

- if you want to upgrade your conventional electrical installation to a home automation system
- when an extension is needed on an existing home automation system (e.g. you just want to add a control point to an existing installation)
- if it is not possible to make changes on the electrical installation and no recabling is allowed (e.g. renovation)
- for less complex new installations.

_Radio offer

_Principle of Radio automation

Remote management of receivers is ensured by battery-powered surface-mounted transmitters.

Radio devices can fall into two categories:

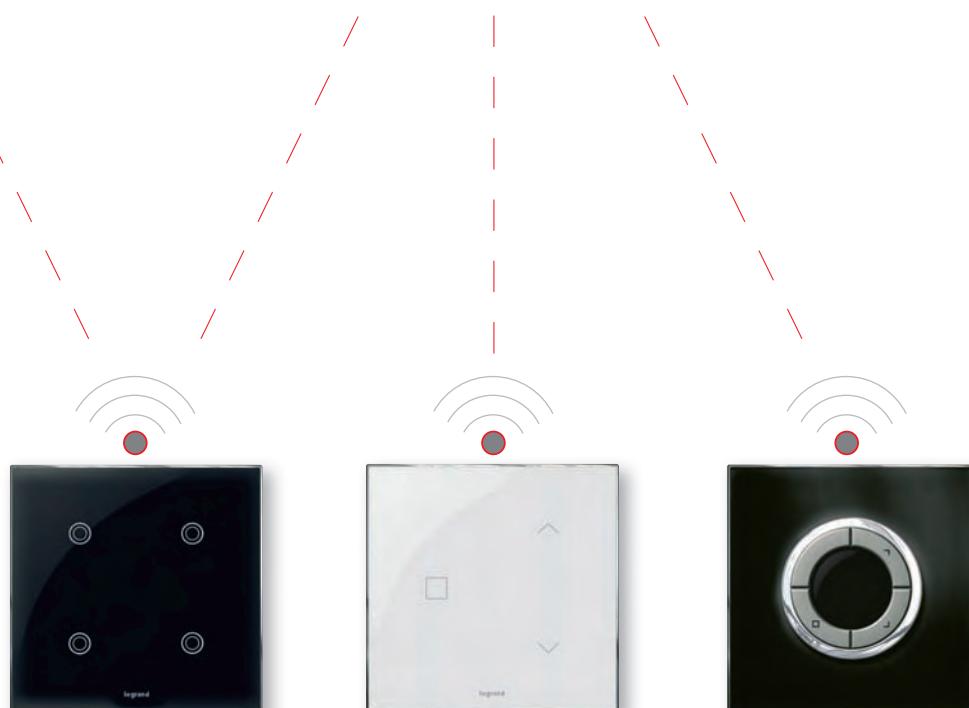

- Actuators (transceivers) which are connected to the load and to the mains supply
- Controls (transmitters) powered by battery

Flush-mounted receivers
control loads

42

43

The ZigBee® Protocol

Recognized worldwide

The ZigBee® protocol has been developed by an alliance of many international players.

This new radio transmission protocol is based on the IEEE 802.15.4 wireless personal area network standard. It works on the 2.4GHz frequency which can be used throughout the world. This means

In One by Legrand home automation solutions can be installed anywhere in the world.

ZigBee® based radio solutions* are even suitable for complex installations, they ensure high performance and excellent reliability.

* ZigBee® Certified Product - Manufacturer Specific Profile

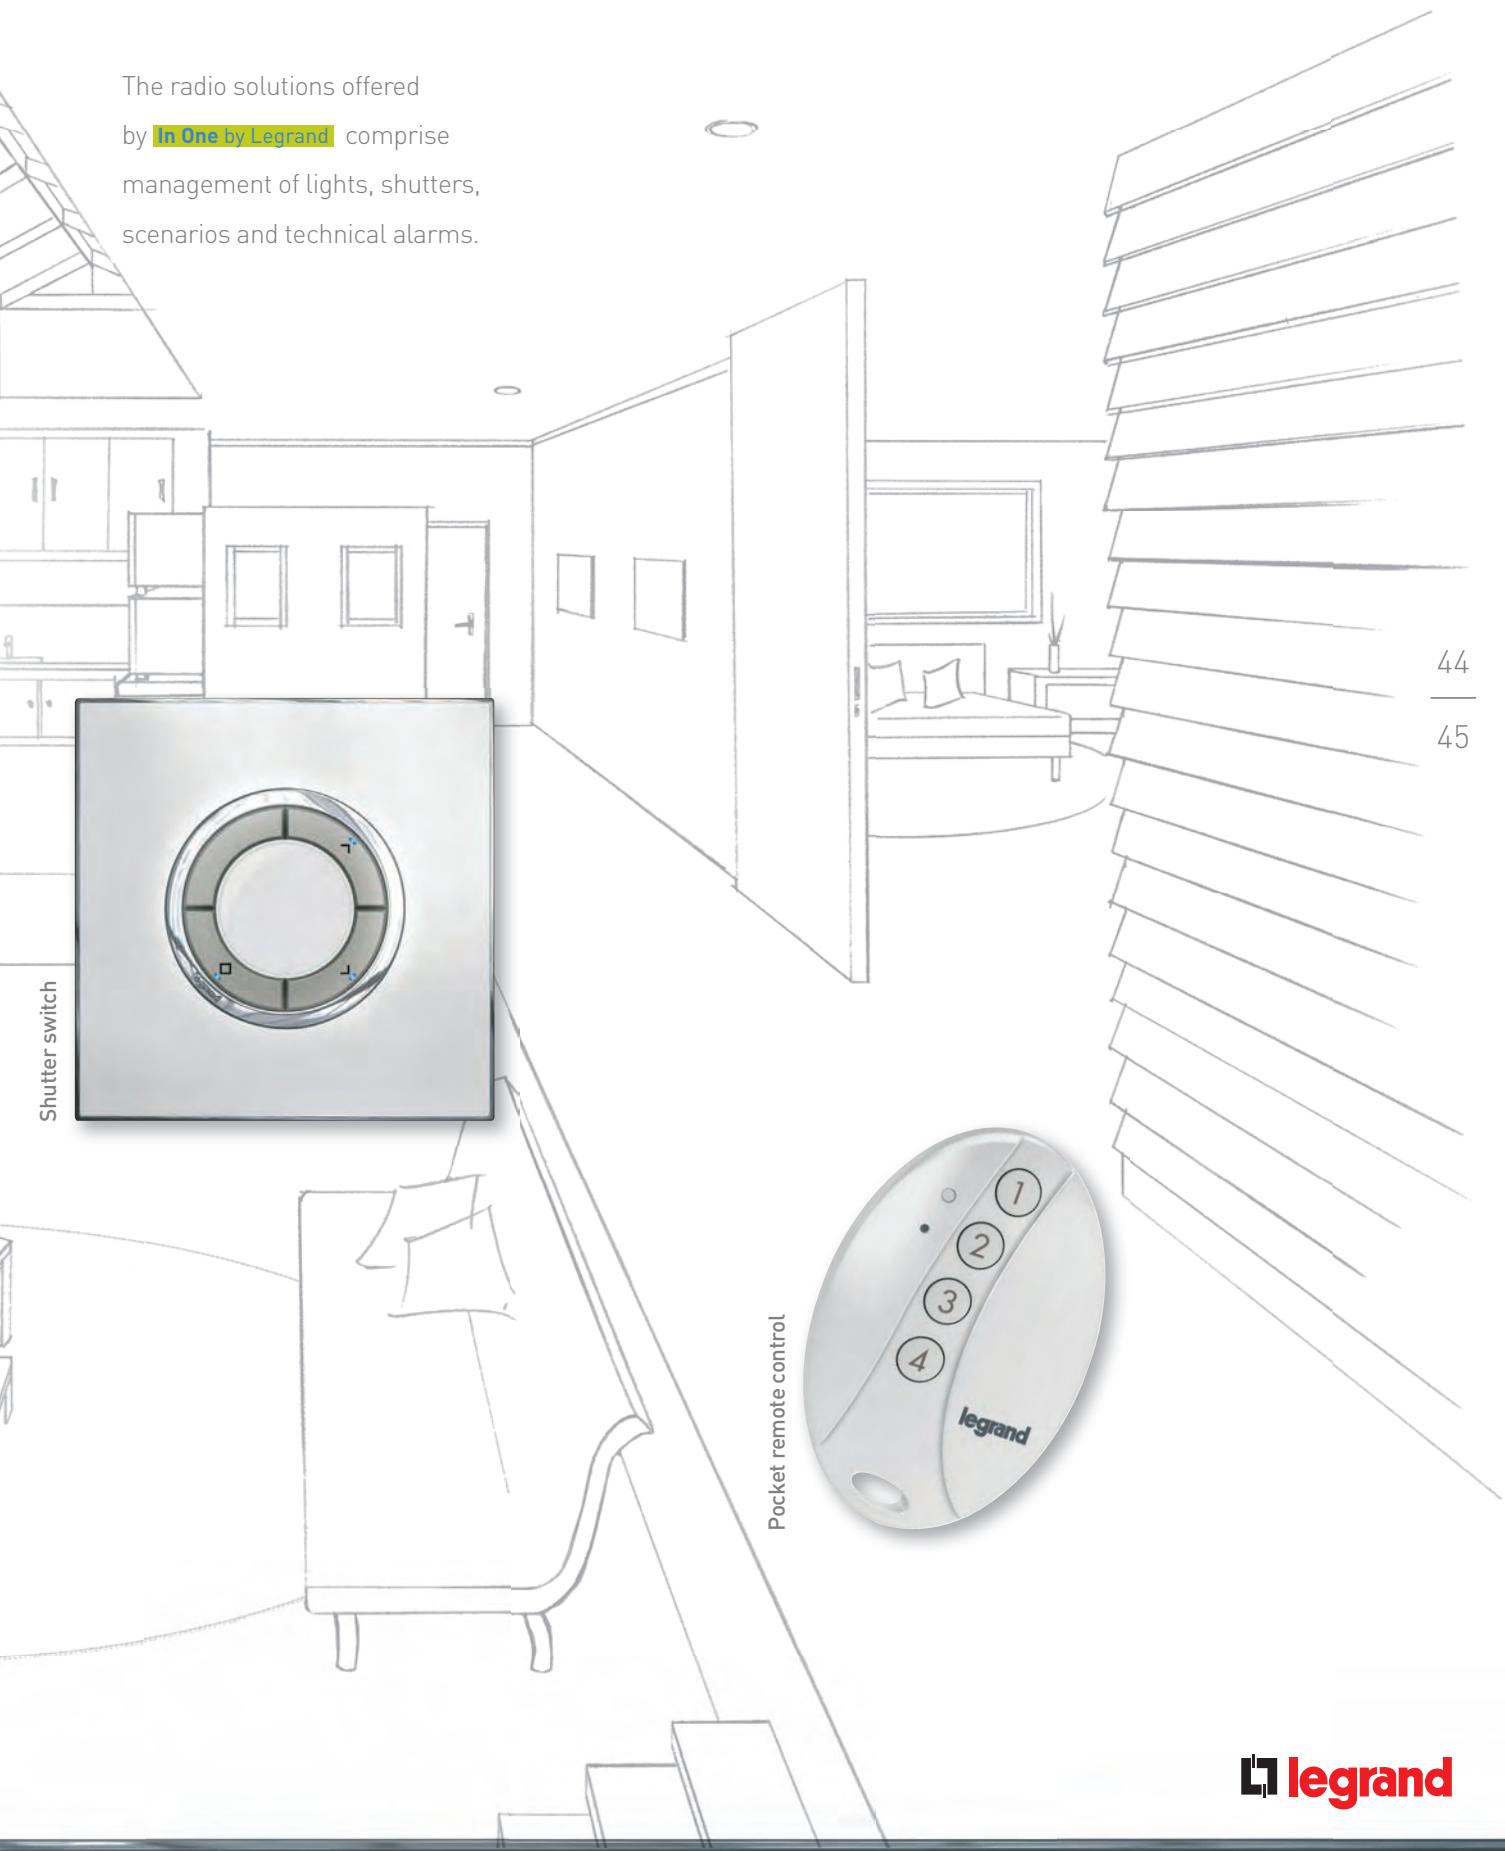

4-scenario touch plate

Radio Offer: functions

The radio solutions offered by **In One by Legrand** comprise management of lights, shutters, scenarios and technical alarms.

Bus offer

2-wire BUS technology

The **In One by Legrand** BUS offer is based on 2-wire BUS working on the private SCS protocol.

When to use it

Ideal for new installations, the BUS system integrates different applications – such as comfort, safety, energy saving functions, door entry systems, management of multimedia contents, remote supervision and control – offering fully networked solutions.

Radio extension

The BUS system can be extended with **In One by Legrand** radio solutions through the SCS/ZigBee® gateway

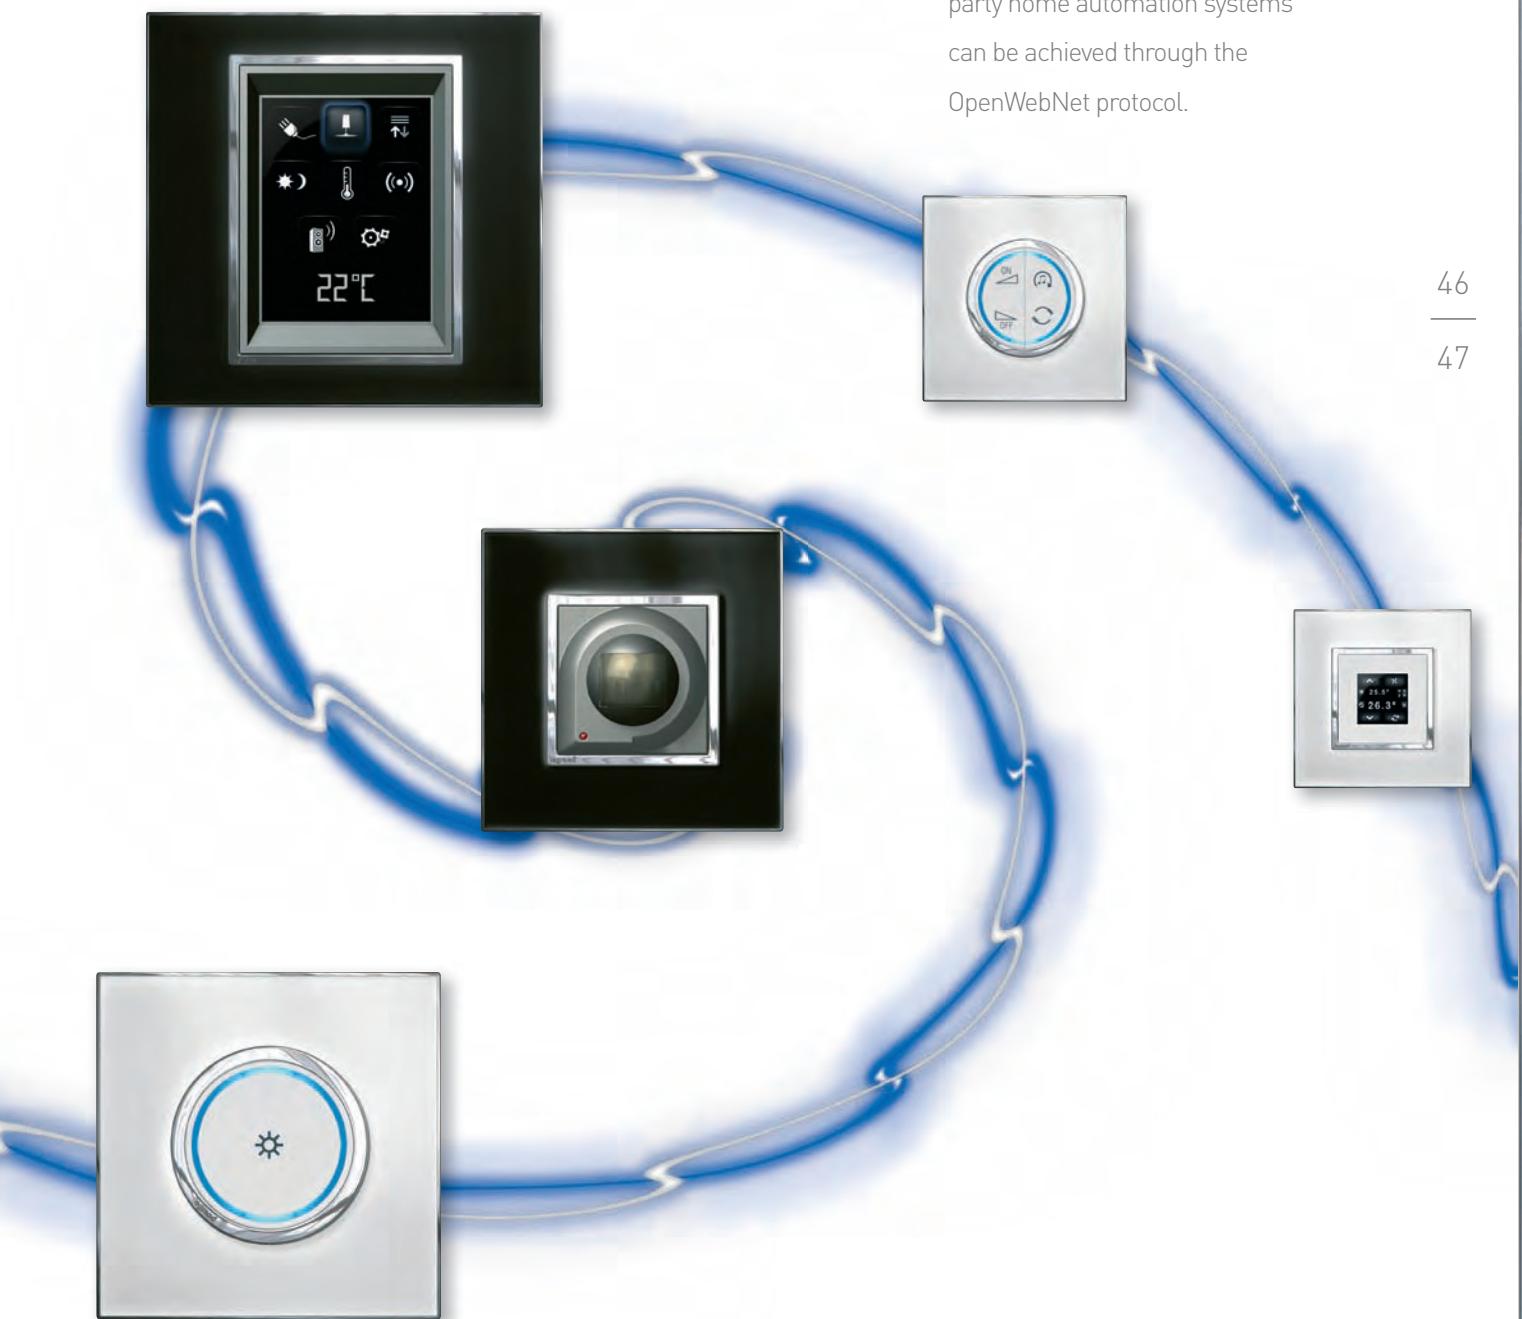

Open to Third Party solutions

- The BUS system guarantees integration with DALI and KNX through dedicated gateways.
- Interoperability between **In One by Legrand** systems and third party home automation systems can be achieved through the OpenWebNet protocol.

46

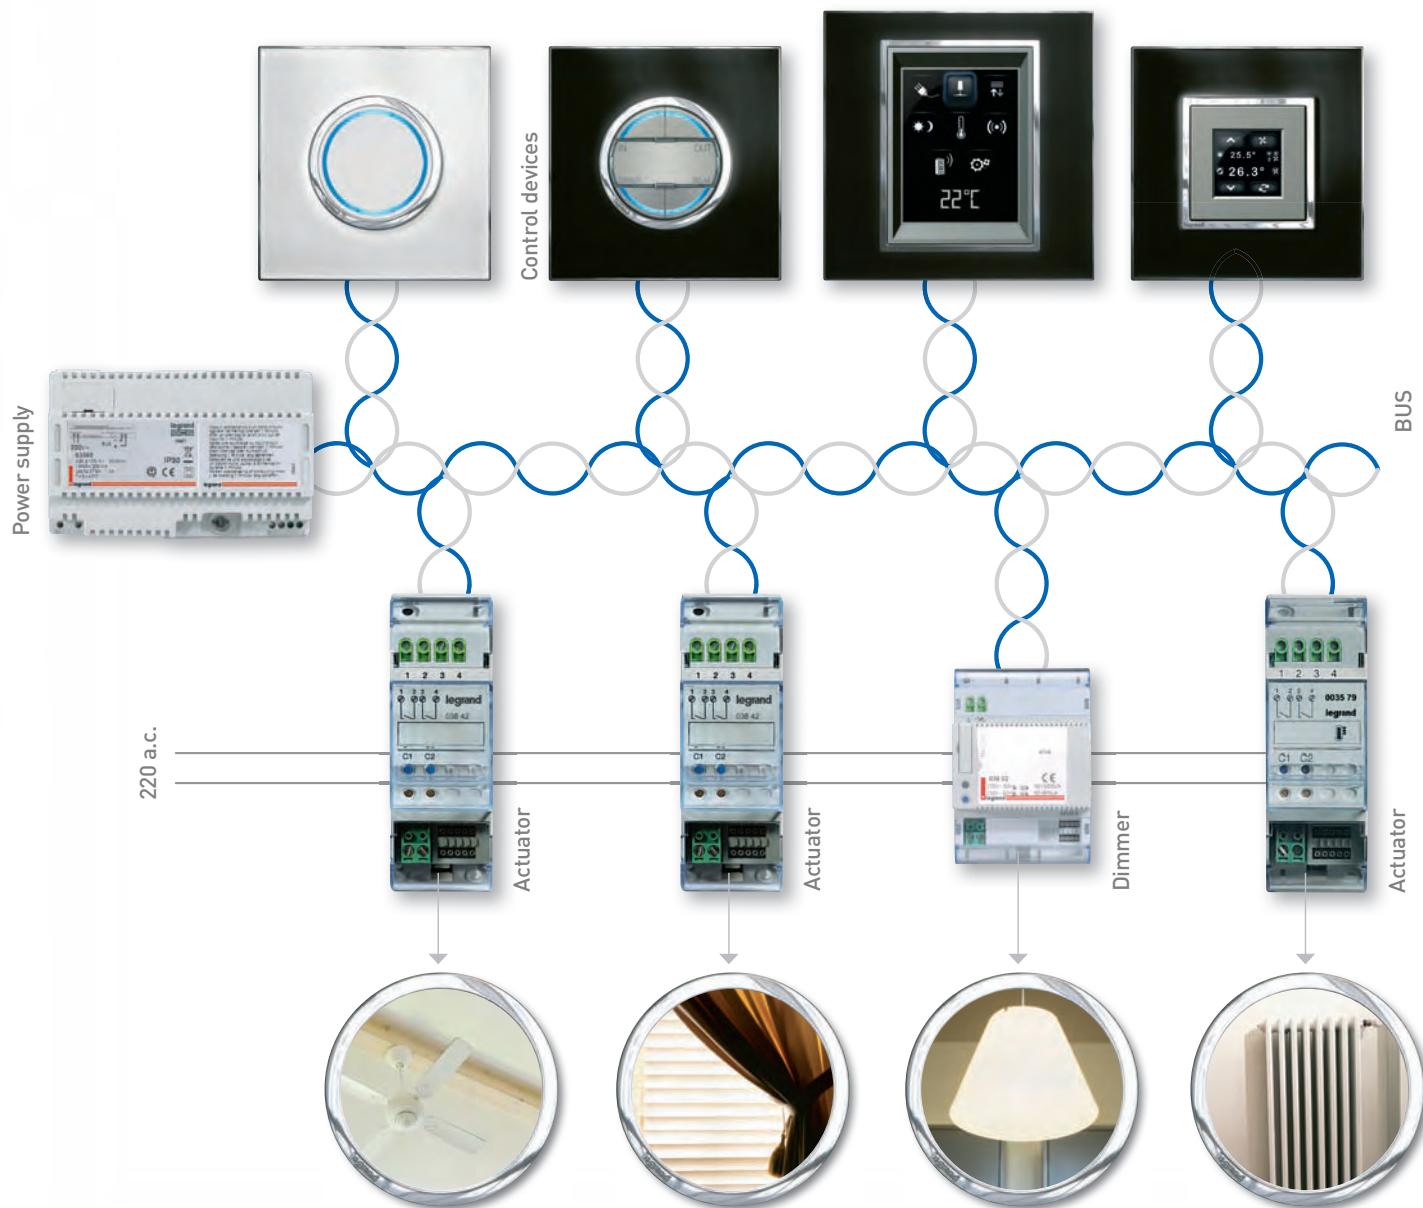

47

2-wire BUS offer: SCS

All devices are connected in parallel to the BUS, which is a cable with twisted pairs.

The functions associated to each product depend on the given configuration.

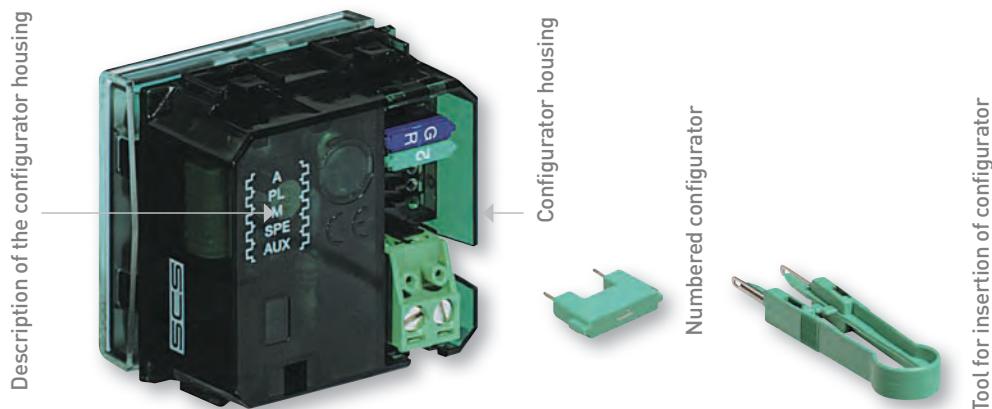

_Configuration

Easy configuration

The product can be configured using physical configurators on the product itself or through virtual configuration via computer.

48

49

_Centralized architecture

The system is composed of actuators and control devices.

Actuators which control the loads are connected to the BUS and to the power line. They are DIN module

devices centralized on the electrical panel board.

Control devices transmit information to actuators through the BUS line.

They are installed in every room.

Innovation in functions

A new generation of dimmers

Leading/trailing edge Dimmer 600W

Available in stand-alone and radio version

Arteor™ features complete solutions for modern lighting management, from entry level for a single load to top dimmers for demanding

applications. Innovative solutions are available in stand-alone version, BUS and radio technology.

Universal Dimmer 300W

Suitable for all kinds of loads including compact fluorescent lamps and LEDs.

Available in stand-alone and radio version

Leading/trailing edge Dimmer 2x400 W
DIN rail mounting, BUS version

Universal Dimmer 300W

with touch plate

Suitable for all kinds of loads including compact fluorescent lamps and LEDs.

Available in radio version

Dimmer for ballasts 0-10V

Available in stand-alone and radio version. Also in BUS version for DIN rail mounting

Leading/trailing edge Dimmer 2x400 W

Stand-alone version

Arteor™ offers:

- A new generation of dimmers for traditional loads: incandescent, halogen, transformers
- An innovative range of dimmers for new loads such as LEDs and compact fluorescent lamps
- Multioutput dimmers

Stand-alone solutions for modern living:

Comfort

Micropush switch

Electronic micropush switch

Sensitive switch

Allows to control light sources by simply passing the hand in front of it

Universal Dimmer

Suitable for all kinds of loads including compact fluorescent lamps and LEDs

Energy saving

Automatic switch

For automatic lighting control

Electronic room thermostat

For active temperature management

Safety

Gas detector

Indicates presence of gas via LED and audible alarm

For timer control of a circuit

Skirting light with detector

Detects a passing person and lights obstacles automatically

54

55

Arteor™ innovative solutions for modern living enhance comfort, help save energy and ensure greater safety. Motion sensitive and automatic switches, dimmers for modern, low consumption light sources

such as compact fluorescent lamps and LEDs, electronic room thermostats, technical alarms – the range offers a great variety of functions that meet all the requirements of modern installations.

Focus on stand-alone office solutions: lighting control

From specific products for adaptable or automatic control of lighting via solutions for access control right through to a wide variety of data, audio and video sockets: Arteor™ contributes to make office buildings operate in a way that is functionally optimal and energy efficient at once.

— access to data

RJ45

Arteor™ dimmers - square version

Arteor™ dimmers - round version

Support frames and plates selection charts (p. 118 to 125)
Loads selection chart (p. 71)

Mechanisms supplied with White or Magnesium square cover plates
To be equipped with support frames (p. 92-93) and plates (p. 94 to 125)

Pack	Cat.Nos		Dimmers 100/240 V~ - 50/60 Hz
1	White 5722 11	Magnesium 5727 11	Resistive/inductive loads touch dimmers Without neutral, 2-wire - 600 W Push-button dimmer 2 modules 22.5 x 45 mm To be mounted on 3-module support frame
1	5722 13	5727 13	Leading edge dimmers Without neutral, 2-wire - 400 W Rotary dimmer 2 modules 22.5 x 45 mm
1	White 5740 07	Black 5740 57	Leading/trailing edge dimmers 2 x 400 W Push-button dimmer With Magnesium push control 2 modules 22.5 x 45 mm Supplied with support frame
1	White 5740 06	Magnesium 5740 56	600 W. Push-button dimmer 2 modules 22.5 x 45 mm To be mounted on 3-module support frame
1	5722 41 ⁽¹⁾	5727 41 ⁽²⁾	1000 W 5 vertical modules 22.5 x 45 mm Supplied complete with flush-mounting box, support frame and plate 5 LEDs showing lighting intensity status
1	White 5740 08	Black 5740 58	Universal dimmers With neutral, 3-wire - 300 W Can be used with compact fluorescent lamps Push-button dimmer With Magnesium push control 2 modules 22.5 x 45 mm To be mounted on 3-module support frame
1	5722 10	5727 10	Dimmers 0-10 V For ballasts 0-10 V Push-button dimmer With Magnesium push control 2 modules 22.5 x 45 mm To be mounted on 3-module support frame

(1) Supplied with White plate

(2) Supplied with Mirror Black plate

Support frames and plates selection charts (p. 118 to 125)
Loads selection chart (p. 71)

Mechanisms supplied with White or Magnesium round rocker plates
To be equipped with support frames (p. 92-93) and plates (p. 94 to 125)

Pack	Cat.Nos		Dimmers 100/240 V~ - 50/60 Hz
1	White 5743 05	Magnesium 5743 55	Resistive/inductive loads touch dimmers Without neutral, 2-wire - 600 W Push-button dimmer 2 modules 22.5 x 45 mm To be mounted on 3-module support frame
1	White 5743 07	Black 5743 57	Leading/trailing edge dimmers 2 x 400 W Push-button dimmer With Magnesium circular push control 2 modules 22.5 x 45 mm Supplied with support frame
1	White 5743 06	Magnesium 5743 56	600 W Push-button dimmer 2 modules 22.5 x 45 mm To be mounted on 3-module support frame
1	White 5743 08	Black 5743 58	Universal dimmers With neutral, 3-wire - 300 W Can be used with compact fluorescent lamps Push-button dimmer With Magnesium circular push control 2 modules 22.5 x 45 mm To be mounted on 3-module support frame
1	5743 09	5743 59	Dimmers 0-10 V For ballasts 0-10 V Push-button dimmer With Magnesium circular push control 2 modules 22.5 x 45 mm To be mounted on 3-module support frame

Arteor™ lighting environment controller

5740 60

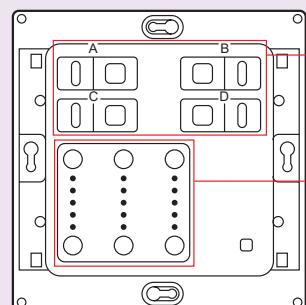

Mechanism supplied complete with White or Magnesium square cover plate, flush-mounting box, support frame and plate

Pack	Cat.Nos	Lighting environment controller
1	White 5740 10 ⁽¹⁾ Magnesium 5740 60 ⁽²⁾	<p></p> <p>Main controller 3 x 1000 W Particularly suitable for controlling lighting environments in conference rooms, meeting rooms, restaurants, showrooms, etc.</p> <p>Possible applications: - control of 3 lighting circuits in one room - control of lighting environments by dimming polychromatic lamps (red/green/blue or warm white / cold white) Sources supported per circuit: - 1000 W for incandescent and halogen 230 V~, - 1000 VA for fluorescent tubes with 0-10 V ballast, - 1000 VA for ELV halogen lamps with ferromagnetic or electronic transformer The cumulative load of the 3 circuits must not exceed 2200 W DALI input ballast and 0-10 V ballasts can be controlled Controls on front face: - 6 push-buttons for on/off/dimming control of each of the 3 lighting circuits - 3 sets of 5 LEDs displaying the current level of each circuit - 4 push-buttons for memorisation and control of lighting environments</p>

(1) Supplied with White plate
(2) Supplied with Mirror Black plate

Arteor™ lighting environment controller

■ Lighting environment controller

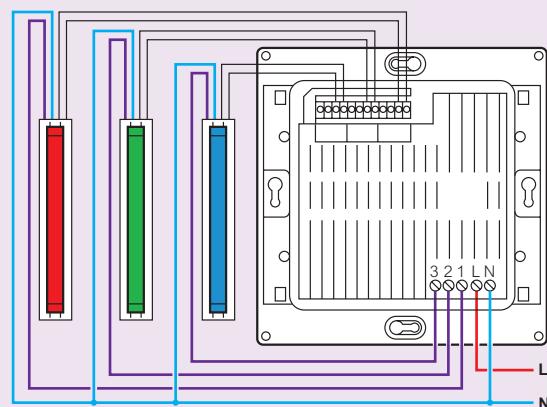

Choice of scenes:
(factory configuration)
A: 100 % C: OFF
B: 66 % D: 33 %

Manual setting on each of 3 channels:
light dimming / switching ON/OFF

Wiring principle

With 0-10 V ballasts

By controlling the RGB proportions, you can create scenes favouring warm or cold colours or scenes with dominant colours

The possibilities and results are identical using LED (lights) piloted by 0-10 V ballast

Possibility to mix channels with different types of lamps (example: 1 channel for 0-10 V ballast, 2 channels with incandescent lamp dimmer)

Arteor™
loads selection chart
■ Electronic switches, dimmers, lighting environment controller max. loads

To be equipped with support frames (p. 92-93) and plates (p. 94 to 125)

Pack	Cat.Nos	RCBO
1	White 5723 60	<p>Single pole + Neutral - 30 mA 16 A - 230 V~ The RCBO is used to protect people (premises with a conductive floor, presence of water, etc...) against direct contact with live parts or leakages to earth With test button 2 modules 22.5 x 45 mm</p>

Thermal magnetic proximity MCB		
1	White 5723 61	<p>Single pole + Neutral - 230 V~ 16 A Used for local protection of part in a circuit (e.g. 2P+E socket) against overloads and short-circuits Used in addition to the main protection as it is both close to the user and discriminating vis-à-vis the main protection, and can therefore be reset immediately The proximity MCB can also be used as a local consumption limiter (depending on its rating) Breaking capacity: 3000 A 2 modules 22.5 x 45 mm</p>

Triple pole isolator		
5	White 5720 50	Magnesium 5725 50

For fan
2 modules 22.5 x 45 mm

Water leak detectors

Mechanisms supplied with White or Magnesium square cover plates

To be equipped with support frames (p. 92-93) and plates (p. 94 to 125)

Pack	Cat.Nos	Ethernet 10/100 base T switches
1	White 5720 83 Magnesium 5728 83	Possible to extend an existing network by simply replacing an RJ 45 socket Voltage power indicator on the front panel Secure access to the Reset function Conforming to standards IEEE 802.3 (Ethernet) and EN 500 81/82-2 (EMC requirements) Require the use of Ethernet 10/100 base T network cards on the peripherals for 10/100 Mbps data exchanges Equipped with 6 front ports + 1 RJ 45 connector on the side for wiring and carrying out testing of the link No tool required for connection Port status display integrated in the RJ 45 connectors Support of the total forwarding capacity on all ports Integrated marker-holder for identification of the switch Marking of ports from 1 to 6 6 modules 22.5 x 45 mm
1	5720 84 5728 84	Non-manageable 230 V supply PoE supply (802.3 af)
1	5720 85 5728 85	Manageable 230 V supply

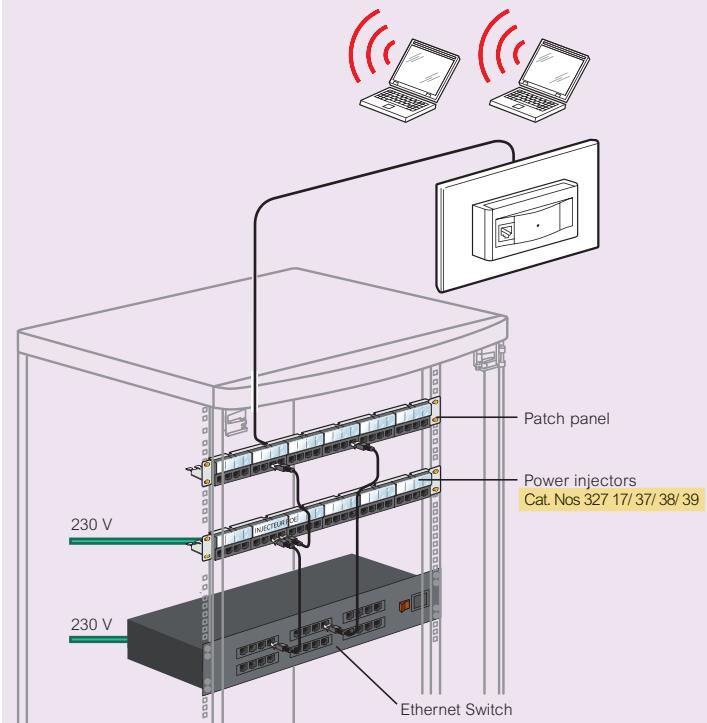

Wi-Fi access point

Come in addition to a new or existing LCS structured cabling, to meet the requirements for mobility in the building (meeting rooms for example)
Identical connection to the LCS RJ 45 socket
Remote management via a web interface
Allow the configuration and the exploitation of the Wi-Fi access point by the network administrator. Security via WPA2 encryption (802.11i) and/or authentication (802.11x)
Guest access to offer free access to the guests and keep independent and secure the main Wi-Fi network
Supply via Power over Ethernet (standard 802.3 af)

1	White 5723 76 Magnesium 5728 76	4 modules 22.5 x 45 mm Standards 802.11a and 802.11b/g dual-band dual-radio Data rate: 54 Mbps max. on each frequency (802.11a and 802.11g) Equipped with an RJ 45 socket on the front panel
1	5723 77 5728 77	Standards 802.11a and 802.11b/g dual-band dual-radio Data rate: 54 Mbps max. on each frequency (802.11a and 802.11g)
1	5723 78 5728 78	Standard 802.11 b/g Data rate: 54 Mbps max.

Arteor™ Ethernet switches, Wi-Fi access points

■ Installation principle

■ Arteor Wi-Fi access points

A 802.11 a and b/g solution

Radio communication standard	802.11 b/g	802.11 a
Power over Ethernet standard		802.3 af
Frequency band	between 2.40 and 2.48 GHz	5 GHz
Number of available channels	13	8
Max. data rate	54 Mbps	54 Mbps

■ Advantages of a Legrand Wi-Fi access point

- Possibility of simultaneous operation on 2 frequencies, a and b/g
- Provides a max. data rate of up to 2 x 54 Mbps in simultaneous mode
- Very high security level: encryption (WPA2 - 802.11i) and authentication (802.1x)
- Possibility of roaming (moving from one access point to another without breaking the link)
- Quality of service (priority automatically given to voice, then video and finally data) in accordance with standard 802.11e
- Easy to configure and make secure with the quick configuration node

NEW: Guest access to offer a free access for the guest and keep independent and secure the main Wi-Fi network

■ Installation

In all supports that can take an Arteor mechanism (ducting, columns, flush-mounting boxes, floor boxes, etc)
Do not place access points behind an obstacle that would limit the radiation of the antenna
Access points are connected in the same way as RJ 45 sockets

■ Sizing

- Provide 1 access point for 1 localised requirement
- Provide 1 access point per 100 m² for global coverage and a maximum gross speed
- Provide 1 access point with an RJ 45 socket for an office used by visitors

■ Legrand services

To guide you in setting up your VDI sites:

- Help with sizing the installation
- On site assistance for integrating products and making important installations secure

Arteor™ audio and video sockets, equipment cords and cables

779 30

Support frames and cover plates selection chart (p. 118 to 125)

Mechanisms supplied with White or Magnesium square cover plates
To be equipped with support frames (p. 92-93) and plates (p. 94 to 125)

Pack Cat.Nos HD 15 amplifier + Jack kit

Pack	Cat.Nos	
1	White 5723 70 Magnesium 5728 70	

Used to connect audio/video terminals at a distance of more than 20 m
The video link is via an HD 15 connector (resolution up to UXGA), and the audio link via a 3.5 mm jack
Comprises:
- One 4-module Arteor transmitter supplied with cover plate equipped with an HD 15 connector and a 3.5 mm jack
- One 4-module Arteor receiver equipped with an HD 15 connector and a 3.5 mm jack
- One 4-module Arteor power supply to be connected on the mains then linked to the receiver
The transmitter and receiver are supplied with an RJ 45 LCS jack for tool-free connection
The link between the transmitter and receiver is via a network cable (Cat.No 327 56) (consult us)

Equipment cords

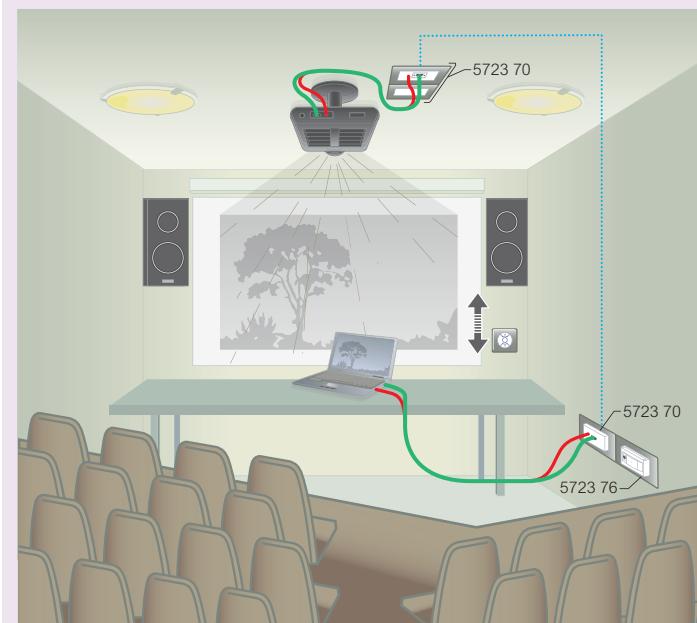

1	517 20	For connecting a socket to a terminal HDMI cord Length 10 m For connecting an HDMI socket to the audio/video terminal (plasma screen, DVD drive, Home Cinema, games console, etc) For use at more than 10 m, use the HDMI Booster Cat.No 779 30
1	517 22	HD 15 cord + 3.5 mm Jack cord Length 2 m For connecting an HD 15 video socket and a 3.5 mm audio jack to a terminal (PC, video projector)
1	779 30	HDMI booster Used to extend an HDMI connection Consists of 2 female connectors and used as an addition to the HDMI cord (for example cord Cat.No 517 20) Does not need an external power supply

Cables

1	327 80	For connecting 2 sockets HDMI cable Length 20 m For connecting HDMI sockets at a distance of up to 10 m
1	327 81	VGA cable Length 20 m For connecting full pin HD 15 sockets at a distance of up to 20 m

ZigBee® radio technology

The standard for radio (wireless) solutions, ideal for refurbishment, small new installations and increasing the number of control points, without damaging the walls.

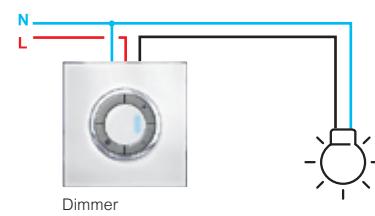

INTERACTIVITY OF FUNCTIONS

In One by Legrand ZigBee® radio technology is an international low consumption radio communication standard. Operating at a frequency of 2.4 GHz, it can be used, via transmitters (wireless) and receivers, to control lighting,

roller blinds, as well as technical alarms. It can also control scenarios, and allows bidirectional communication between devices. It can be used in addition to the BUS system.

WIRING DIAGRAM

► LIGHTING CONTROL

RECEIVER DIMMER SWITCH
(See p. 128)

Indicates the light intensity via LEDs

► SCENARIO CONTROL

4 SCENARIOS CONTROL
(See p. 128)

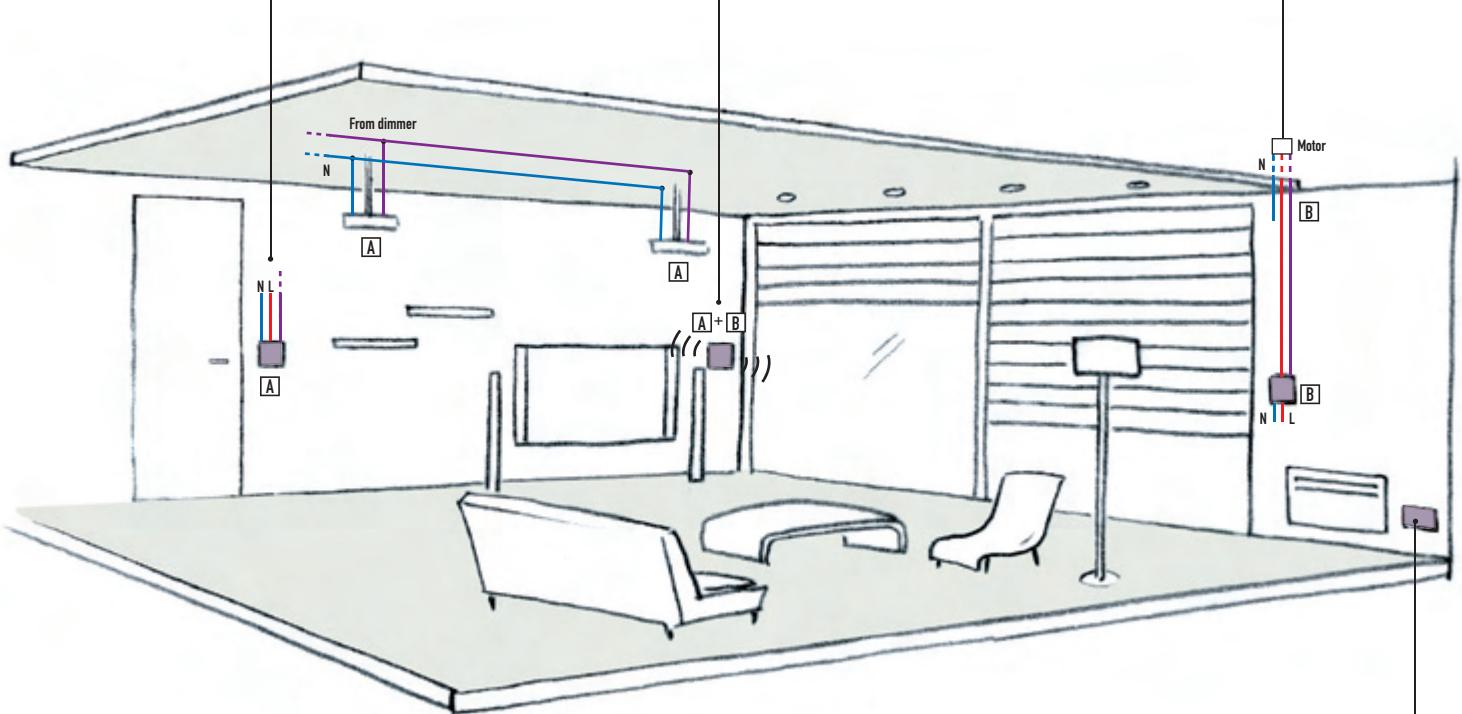

For lighting, roller blinds...

► ROLLER BLIND CONTROL

INDIVIDUAL RECEIVER ROLLER BLINDS SWITCH
(See p. 128)

Controls any type of electric roller blind motor

[A] Indicates lighting control

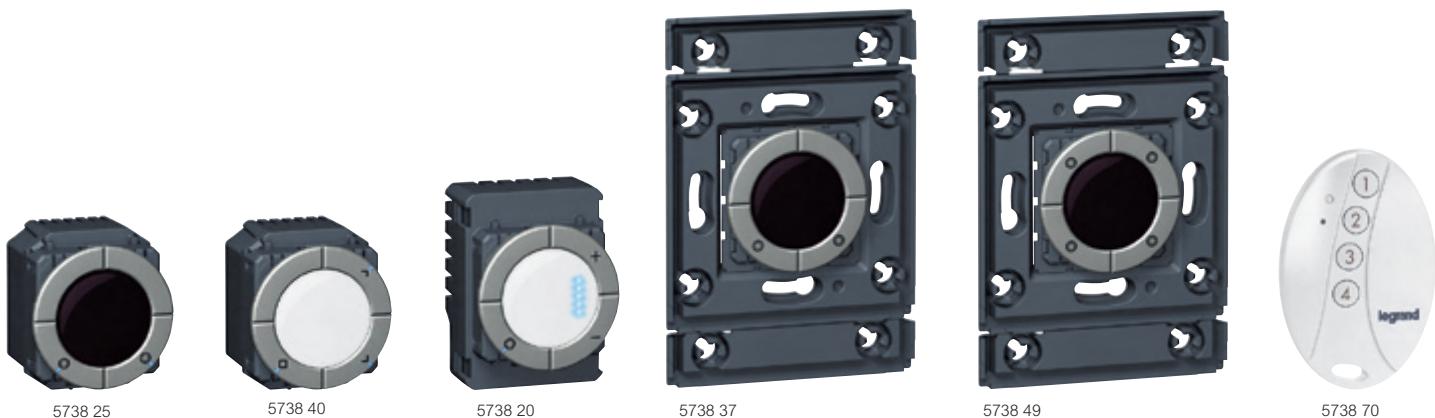

[B] Indicates roller blinds control

► TECHNICAL ALARM

TECHNICAL DETECTORS
(See p. 129)

Give a warning if there is a water, town gas or methane leak

Support frames and plates selection charts (p. 118 to 125)

ZigBee®: Certified product - Manufacturer Specific Profile

BUS/SCS technology

With 2 dedicated wires, for creating scenarios that incorporate all the functions for large living areas: lighting, automation, video door entry system, etc.

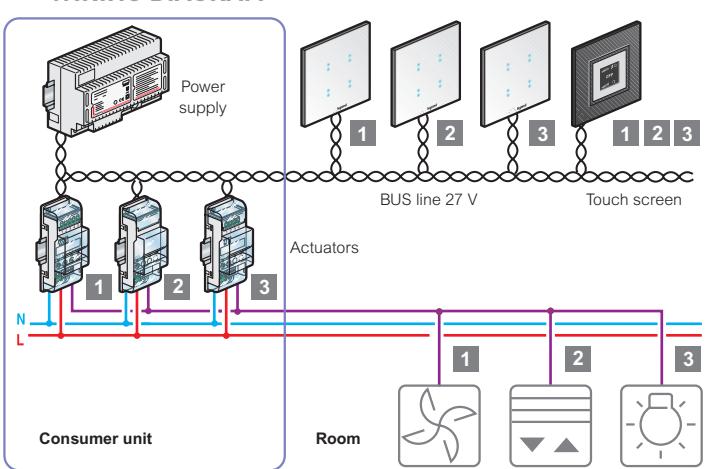

MULTIPLICATION OF FUNCTIONS WITHOUT ANY SPACE CONSTRAINTS.

In One by Legrand BUS/SCS technology can manage various different functions at the same time via 2-wire extra low voltage cables.

It enables a number of functions which can be integrated through scenarios and designed to adapt the user's environment as required.

For complete technical information see
"Arteor™ - Project and installation Guide 2009"

■ System principle

The Lighting Control system allows the management of different functions in a simultaneous and integrated way
All the components of the Lighting Control system are interconnected via an electronic circuit that can be programmed: the BUS
The information is exchanged through the 2 wire BUS cable at low voltage (27 V_{dc})

There are two types of devices in the system:

- the controls units, which are connected only to the BUS cable and
- the actuators, connected both, to the BUS cable and to the 230V_{ac} power line for managing the connected load

When the Lighting Control system devices are configured properly, it is possible to manage the load as follows:

- control for a single load
- control for one or more load groups;
- simultaneous management of all loads

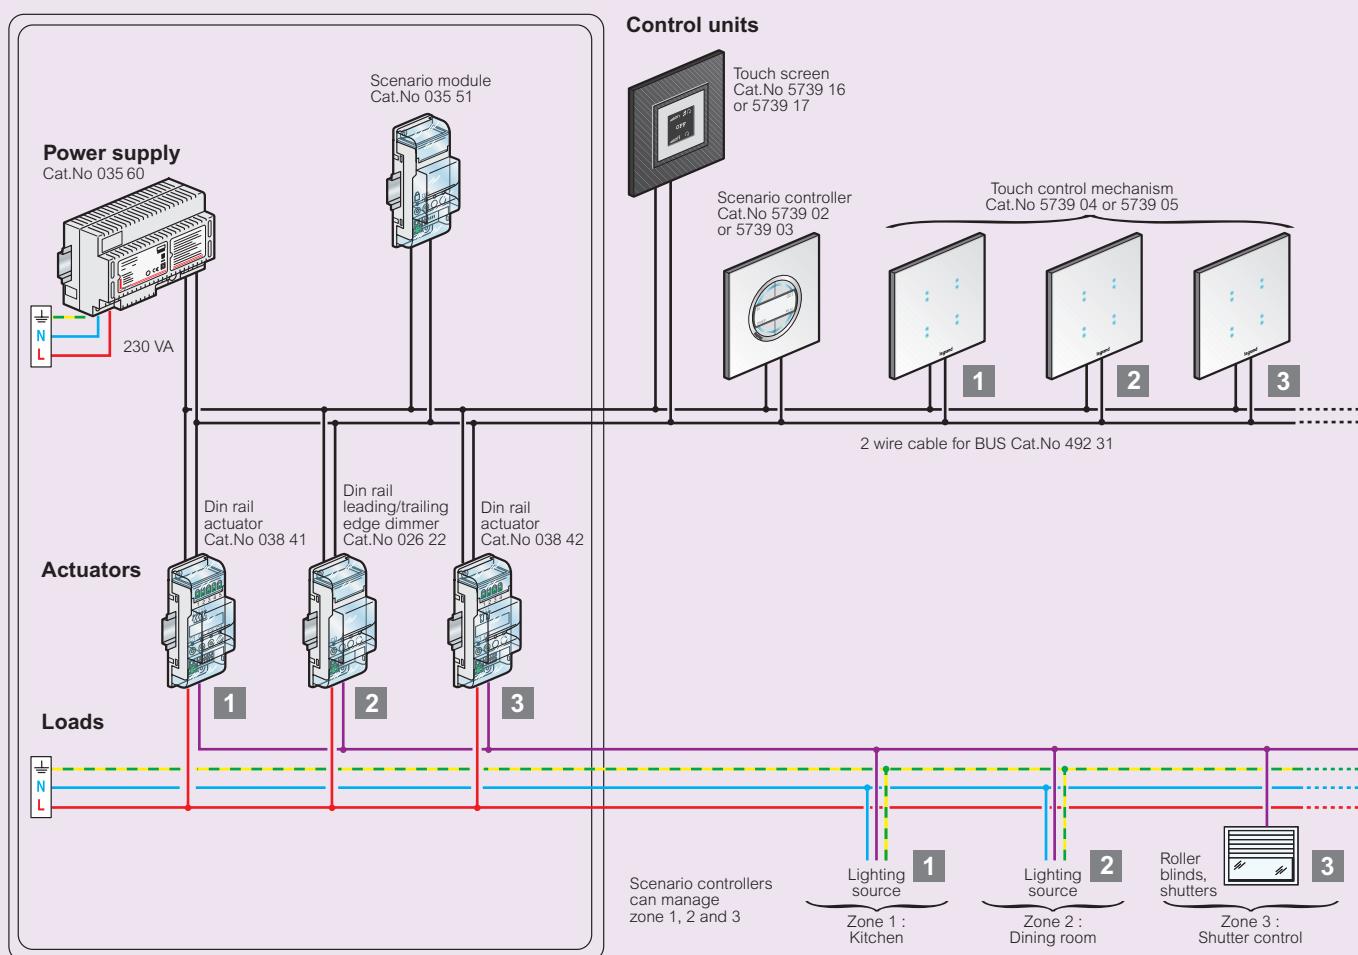

It is also possible to carry out special functions, which can hardly be achieved with conventional electrical systems

These functions are called scenarios

One scenario is a set of simultaneous control of multiple groups of loads, used in order to modify the environment according to the user's needs
An example of a scenario can be represented by the simultaneous activation of lights, which can be set by the user after getting inside the building by using one single control device or by using the Touch Screen menu

■ Installation principle

Consumer unit

Central units for temperature control

Equipped with White or Magnesium square version keypad cover plates, to be equipped with special plates (p. 124-125). Supplied with support frame, flush-mounting box and 7.2 V battery Cat.No 675 18

Temperature control central unit
Can manage up to 99 zones

Probes

To control the room temperature of heating and cooling system
Equipped with White or Magnesium square version cover plates, to be equipped with plates (p. 94-125)
To be installed in flush-mounting boxes
2 module mechanisms 22.5 x 45 mm

Temperature setting range:
from 3 °C to 40 °C

Temperature setting range:
from 3 °C to 40 °C with knob for adjustment of +/- 3 °C relative to the set temperature and for the modality selection

Temperature setting range:
from 3 °C to 40 °C with manual/automatic speed selection for fan-coil

Touch screens

Equipped with White or Magnesium surround, to be equipped with plates (p. 94-125)

1.2" touch screen for activation of 4 scenarios or temperature, or sound distribution functions
To be equipped with 2 module plates

Pack	Cat.Nos

Detectors

Equipped with White or Magnesium square version cover plates, to be equipped with plates (p. 94 to 125)
2 module mechanisms

IR detectors

Volumetric presence detector with passive infrared rays
Alarm signal LED with memory
8 meters range, 14 bands divided over 3 levels
Possible activation of auxiliary prealarm channel

Fixed IR detector
Angular opening 105°

Adjustable IR detector
Angular opening can be divided from 105° to 0°
Swivel lens on 2 axes

Double technology detectors (IR and MW)

Volumetric presence detector made up of two sensors: one infrared to detect hot bodies (IR) and one with microwaves to detect movements (MW)
The alarm is only triggered when both detection technologies are activated

Pack	Cat.Nos
1	White 5739 44 Magnesium 5739 45

**■ System principle**

The burglar alarm system permits to protect the home from the intrusion through the protection of ambiances and perimeters
The system is composed by a flush-mounted central unit with integrated dialler, IR detectors and perimeter sensors
All the devices are connected with a low voltage (27 V) twisted pair not polarized
Through the dialler it's possible to be informed in case of alarms and also control the system with the telephone (arm/disarm) and check in each moment the status
On the central unit it's possible to arm/disarm and change the active areas through code number or badge transponder
Up to 50 different user IDs
Limitation in terms of accessible areas and time slot can be assigned to each user
200 events are stored in the central unit to know exactly what happened on the system
The system can manage also technical alarm (example: gas, flooding) with the possibility to be informed locally through indoor sounder and with automatic closure of valves

Home networks: music, video, data everywhere in the house

With Legrand home networks users can enjoy distributed audio and video around the house as well as access to computer and telephone networks wherever needed.

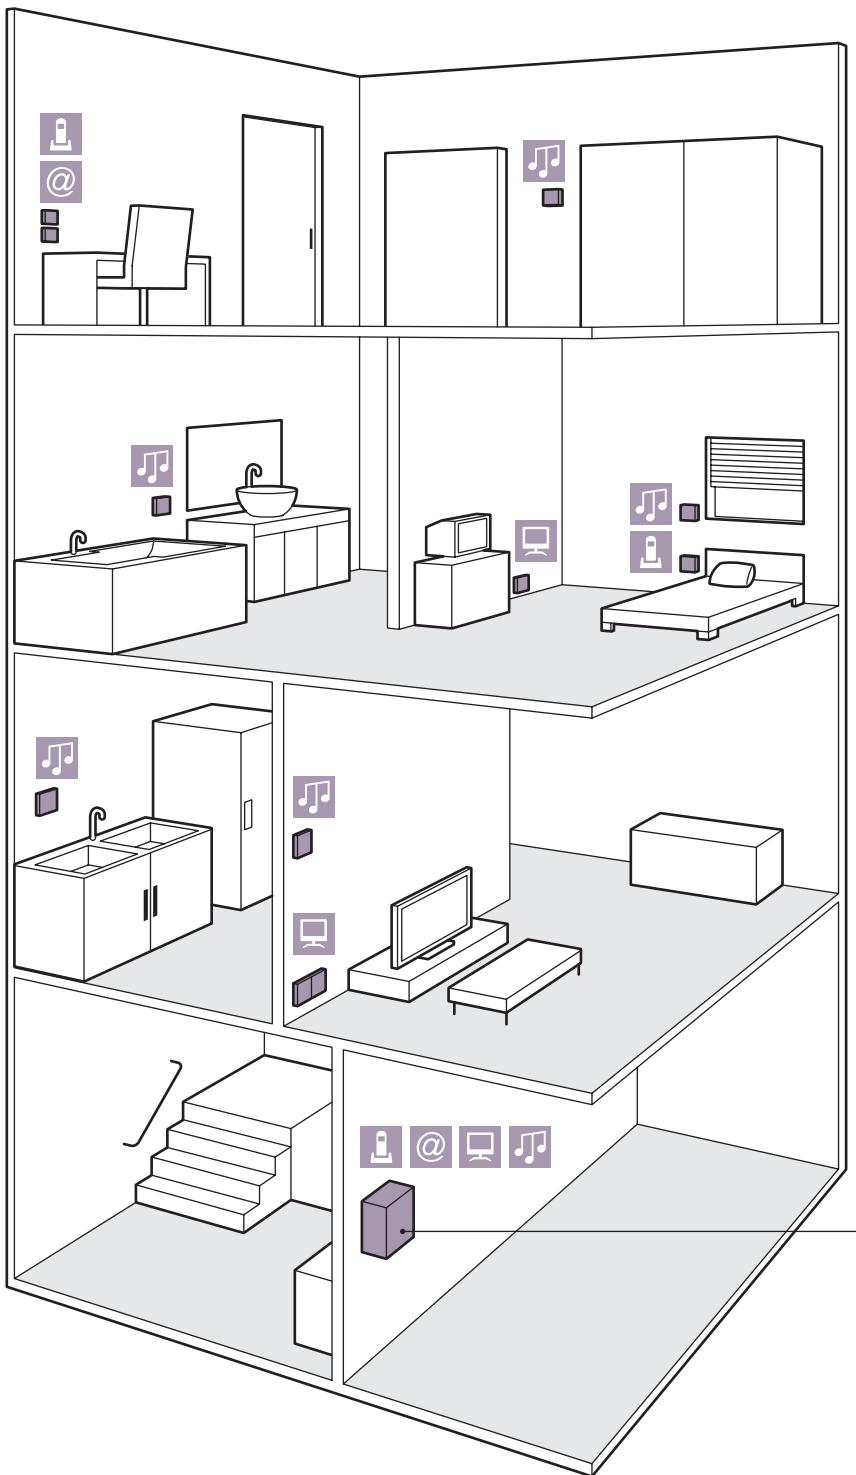

With this flexibility, rooms blend seamlessly into one, yet each with the capacity for independent control, allowing users to see, hear and interact with whatever they want, wherever they want. Users enjoy their favourite CDs, MP3s, radio station or even the audio signal from your TV anywhere in the house. Legrand home networks will distribute sound from a central source to speakers throughout the home.

Pack	Cat.Nos	Enclosures	Pack	Cat.Nos	Modules (continued)
1	6338 01	Enclosures to be equipped with audio, video, data or telephone modules Capacity: 3 single size modules or 1 double size and 1 single size module Dimensions: 295 x 115 x 100 mm	1	6338 30	Video modules (continued) 1 x 4 LNB satellite diplexer Size: single module
1	6338 02	Capacity: 10 modules (single or double size modules can be integrated) Dimensions: 500 x 355 x 95 mm Enclosure 20" with screw on cover	1	6339 93	SMATV distribution over RJ 45 (5 - 2400 MHz) Size: 2 single modules Equipped with power supply and line amplifier
		Modules	1	516 93	RJ 45 - IEC patch cord for TV network Length: 2 m
1	6338 21	Advanced audio modules To be installed inside enclosures Single source - 4 zone audio distribution module Size: single module	1	6338 25	Data modules To be installed inside enclosures 4 port router/switch (10/100 Mbits) De-select routing function mechanical switch 12 - 15 V 300 mA 3.5 - 4.5 W Size: double module
1	6338 53	4 sources, 8-zone audio distribution module High quality stereo music in 8 rooms Passes infrared remote control signals 24 V - 60 W Size: double module	1	6338 26	10/100 Base-T auto-sensing switch 5 port - Auto-configuring Provides connectivity for a local area network 12 - 15 V 300 mA 3.5 - 4.5 W Size: single module
1	6338 22	Advanced audio modules - surface-mounting RCA - single source input IR engine Input gain control For surface-mounting	1	6338 33	Patch cord (RJ 45 - RJ 45)
1	6338 48	RCA - triple source input IR engine Input gain control For surface-mounting	1	6338 23	Telephone module To be installed inside enclosures 4 x 12 telephone module High performance RJ 45 telecom distribution Provides flexibility and convenience Size: single module
		Video modules To be installed inside enclosures 1 x 4 bi-directional passive splitter/combiner Size: single module			
1	6338 27	1 x 8 bi-directional passive video splitter/combiner Size: single module			
1	6338 28	2 x 2 enhanced bi-directional video amplification Size: single module			
1	6338 29

Pack	Cat.Nos	Power supplies
1	6338 32	Multi voltage power distribution module Distributes: - 15 V _{dc} to up to 4 locations - 12 V _{dc} to up to 2 locations - 5 V _{dc} to up to 1 location Supplied with 24" power cord jumpers
1	6338 40	15 V _{dc} power supply Includes a BS cord alimentation
1	6338 41	24 V _{dc} power supply Includes a BS cord alimentation For audio modules Cat.Nos 6338 21/53

Loudspeakers		
1	6338 43	High efficiency speakers with low distortion 6.5" inch in-ceiling round speaker (pair)
1	6338 44	Dual voice coil stereo speaker 6.5" inch in-ceiling round speaker
1	6338 45	Outdoor speakers pair - 90 dB Black Also suitable for moisture rich environments such as bathrooms or saunas

Controls		
1	6338 46	Dual IR mouse emitter Used to control audio sources via audio distribution system To be connected on single or triple source input Cat.Nos 6338 22/48 To be used with universal IR receiver Cat.No 6338 47
1	6338 47	Universal IR receiver for remote control Cat.No 6338 50 To be used with dual IR mouse emitter Cat.No 6338 46
1	6338 50	Universal learning remote control Control all distributed audio keypads at the same time from anywhere in the house

Red catalogue numbers: New products

Pack	Cat.Nos	Keypad volume control distributed audio
1	5722 93 5727 93	White Magnesium Mechanisms equipped with White or Magnesium square cover plates To be equipped with support frames and plates (p. 118 to 125) 3 modules 22.5 x 45 mm Built-in IR receiver

Pack	Cat.Nos	RCA local source inputs
1	5722 94 5727 94	White Magnesium Allows user to plug in devices like portable audio players and computer audio outputs Mechanisms equipped with White or Magnesium square cover plates To be equipped with support frames and plates (p. 118 to 125) 3 modules 22.5 x 45 mm

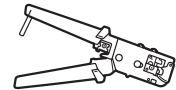

Pack	Cat.Nos	Accessories
1	6338 73	Bracket 3-module mounting bracket Allows mounting of 3 single size modules Horizontal or vertical mounting
1	6339 91	RJ 45 patch panels 4-way - Cat.5e RJ 45 bloc unit/UTP
1	6339 92	4-way - Cat.6 RJ 45 bloc unit/UTP

Pack	Cat.Nos	Installation tools
1	6338 99	EZ crimp tool
10	6338 51	EZ RJ 45 connectors

TV and data sockets (p. 85-86)

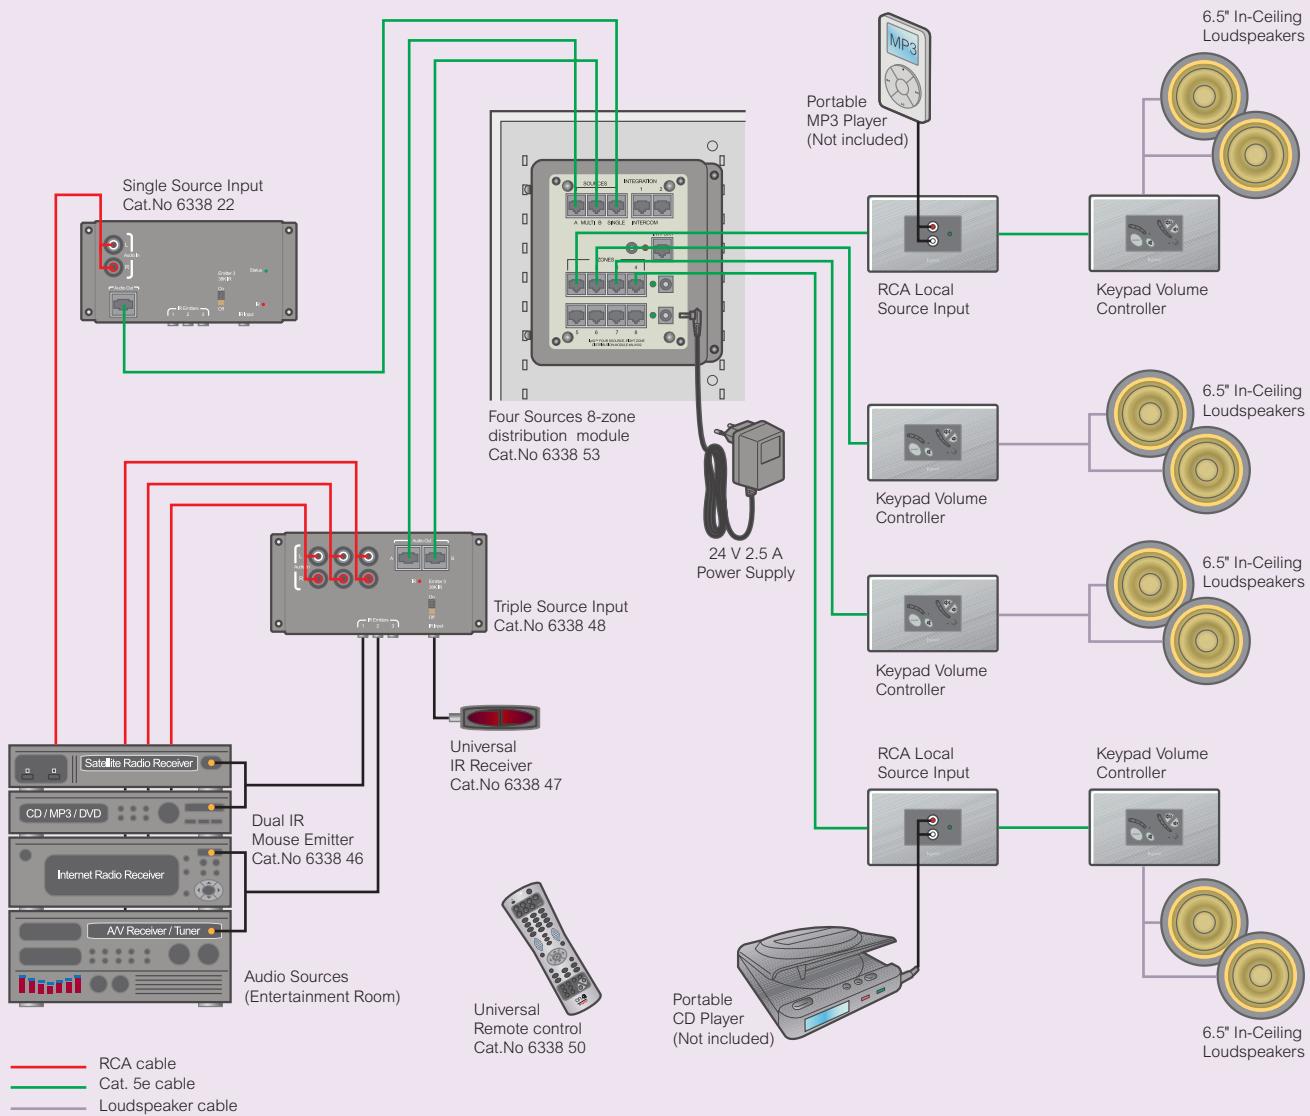

Arteor™ home networks structured wiring - audio

■ Installation principle for distributed audio system: 4 source input - 8 zones

You can listen to any one of four audio sources in up to 8 different locations at the same time

Technical characteristics

- High-quality stereo music in 8 rooms
- Select from four unique music sources in every room
- Amplified keypad volume controller
- Local source inputs allows different music in three rooms
- Infrared remote control for easy sound management
- Expandable up to 32 locations

Composition of the installation

- Keypad volume controller in each room
- Local source input in desired room (local listening)
- Loudspeakers in each room
- 4 sources 8-zone distribution module in enclosure
- Single and/or triple source input devices Cat.Nos 6338 22 and/or 6338 48 in living room

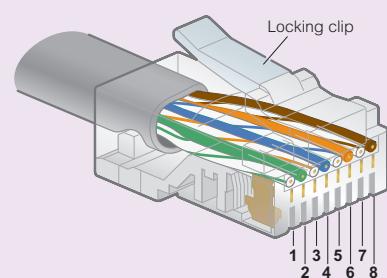

■ RJ 45 plug wiring installation

Plug your cable with connector

- Strip your cable and untwist the pairs
- Cut/cross all wires
- Insert it into EZ RJ 45 connector Cat.No 6338 51
- Clip wires in RJ 45 connector Cat.No 6338 51
- Crimp connector with EZ crimp tool Cat.No 6338 99

Arteor™ home networks structured wiring - audio

■ Installation principle for audio distribution system: single source input - 4 zones

You can listen to the same audio sources in up to 4 different locations at the same time

Technical characteristics

- High-quality stereo music in 4 rooms
- Infrared remote control for easy sound management
- Amplified keypad volume controller

Composition of the installation

- Keypad volume controller in each room
- Loudspeakers for each room
- Single sources 4-zone distribution module in enclosure
- Single source input device Cat.No 6338 22 in the living room

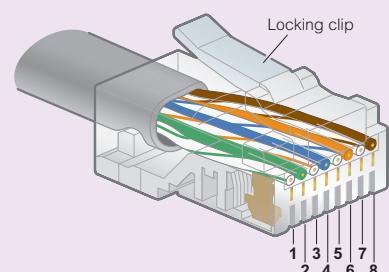

■ RJ 45 plug wiring installation

Plug your cable with connector

- Strip your cable and untwist the pairs
- Cut/cross all wires
- Insert it into EZ RJ 45 connector Cat.No 6338 51
- Clip wires in RJ 45 connector Cat.No 6338 51
- Crimp connector with EZ crimp tool Cat.No 6338 99
