SWITCH ON  
TO STYLE,  
SIMPLICITY,  
INNOVATION,  
CHOICE &  
RELIABILITY

Double Electronic Dimmer /  
Glass Effect / Polished Onyx Finish

MK Electric is always switched on to innovative ideas and new possibilities.

Which is why we've reinvented the humble light switch. And a whole lot more besides.

Back in the 1950s, MK launched the light switch as we know it today. It revolutionised the world and set new standards for the industry. But because we're innovators, we didn't stop there.

Instead, we spent decades putting our acclaimed expertise and experience into action, constantly using our cutting-edge design talent to inquire, invent and improve.

The result is the MK Elements Collection, a revolutionary range of stylish products including switches, sockets and electronic touch control switches and dimmers, inspired by materials such as wood, leather and stone.

From warm, earthy tones to cool, contemporary lines, the wide range of finishes and textures offer the perfect companion for any interior, from vintage villa to modern manor house, seven-star resort to boutique hotel.

MK's bespoke expertise also means that we can create tailor-made versions to suit your individual needs. So if you can imagine it, MK can make it.

But as well as timeless sophistication and extensive choice and versatility, what all Elements products have in common is the same premium attributes and superior performance.

We're particularly proud of the electronic switches and dimmers, whose intuitive finger-tip controls are simple to use, with graceful LED displays that are crying out to be touched.

Plus MK's unrivalled reputation for manufacturing excellence means every device offers the ultimate in reliability.

Innovative, iconic and inspiring, the Elements Collection is the perfect fusion of distinctive design and unparalleled quality.

Like everything MK does, it's beautifully simple... and simply beautiful.

ELEMENTS SYNTHETICS /

# SWITCH ON TO CLARITY & FRESHNESS

The effortless perfection of the Elements Synthetics finishes provide a stunning simplicity to complement any setting.

Inspired by the qualities of the everyday landscape, Natural Stone and Beach Pebble offer a refreshingly subtle and contemporary option. While the smooth and striking Chalk White adds a unique twist to the most basic of colours.

Because MK is the original inventor, the functionality is just as good as the aesthetics, so each product, whether it be a switch, socket or electronic dimmer, offers the ultimate in safety and reliability too.

The refined result stands out from the competition... but won't stand out from the surroundings.

ELEMENTS GLASS EFFECT /

# SWITCH ON TO SLEEKNESS & RADIANCE

The Elements Glass Effect finishes beautifully challenge every perception of what a switch, socket or dimmer should be.

Smooth, gleaming and glossy, the innovative designs and graceful compositions will leave a memorable impression after each use.

From the refreshing coolness of Ice White to the shimmering surfaces of Polished Jade, Polished Onyx and Polished Stone, each radiates an irresistible tactile quality.

Once drawn to touch it, the dimmer's easy-to-use LED display provides the perfect example of functionality and flair in perfect harmony.

And of course, MK's reputation for technical excellence ensures a performance that's as polished as the product itself.

# SWITCH ON TO SUBSTANCE & SYMMETRY

The exquisite elegance of our stunning Elements Metallics finishes provide yet another example of MK's innovative thinking in action.

Combining muted tones and superior styling, the exclusive allure of Satin Platinum and Satin Titanium bring a harmonious accompaniment to every contemporary surrounding.

Unrivalled design also ensures that Brushed Steel and Cast Iron offer the perfect demonstration of understated strength, while the bold and beautiful

Brushed Bronze option makes a simple yet stunning statement.

Precisely manufactured to MK's exacting standards, the distinctive Metallics range provides a sophisticated and practical way to elevate any interior design scheme to the truly unforgettable.

ELEMENTS NATURALS /

# SWITCH ON TO QUALITY & CHARACTER

As you'd expect from the market leaders in electrical technology, the Elements Naturals finishes combine smooth simplicity with the very latest in contemporary style.

The familiar textures of wood are expertly and subtly brought to life in the graceful patterns of British Oak and Dark Wenge.

The same organic influence is also beautifully expressed in Cream Hide and

Dark Hide, which both share the same classically cool character.

And, of course, all four choices combine ground breaking design with functional excellence, resulting in a refined end product that is a natural solution to every situation.
