

# i580

## Biometric Fingerprint Time and Attendance

### Feature

**Design:** Elegant workmanship, metallic mounting plate ,easy to install.

**TFT Display:** 3.5inch figure, TFT high-definition graphical interfaces, can display individual graphical interfaces and personnel color photos.

**Multi-identification methods :** Proximity cards, fingerprint, password.

**Multi-group network communication:** RJ45 Ethernet, RS232, RS485.

Standalone function, Build in embedded TCP/IP protocol, 100M high-speed network , Support the real-time transfer of the time & attendance data, using steady internet platform. Multinational language menu, Multi-item auxiliary functions, Huge capacity memory.....etc.

## i580 Specifications

|                         |   |
|-------------------------|---|
| User Capacity           | 1500/5000/10000/30000   |
| Transaction Record      | 30000/80000   |
| Hardware Platform       | ZEM500  |
| Sensor                  | ZK Optical sensor   |
| Display                 | 3.5 inch TFT LCD  |
| I/O Interface           | RS232/485, TCP/IP, USB host & client  |
| Identification Speed    | < 2s  |
| Operating Temperature   | 0°C - 45°C  |
| Operating Humidity      | 20% to 80%  |
| Function Key            | 8 user defined function keys  |
| Access Control Function | 50 time zones, 5 group, 10 open door combination, support multi-users enter |
| Standard Function       | Scheduled bell, SMS, T9 Input   |
| Optional Function       | ID/HID/Mifare card, WIFI  |

## i580 Connection
