# Berker B.7

## Timeless clarity

Gives every switch the right frame: In addition to glass frame varieties, the Berker B.7 is now also available in various plastic, stainless steel and aluminium. In these materials, it can be perfectly combined with Berker TS Sensor and Berker B.IQ.

Available in glass/polar white matt, glass aluminium, as well as glass black, plastic polar white, plastic anthracite, plastic alu. B.7 frames can be combined with all B.-series centre plates.
